Dear Ivan:

This is in further reference to the Postal Service's January 26 national initiative establishing new finance numbers for facilities identified as using the same 6-digit finance number as another facility. This notice is to inform you that the initiative has been completed.

The Postal Service successfully established and/or assisted in the transition of 1,147 new finance numbers for identified facilities. Establishing the 6-digit finance numbers for these facilities did not change an employee's tenure, job role, physical location, or duty station. Further, this initiative did not impact bargaining unit employees or modify installations or bid clusters.

As explained in the January 26 correspondence (enclosed), the purpose of creating new finance numbers for the facilities identified was to increase visibility in each facility by better defining proper workload and complement needs in those locations.

If it's determined that a facility will need a unique finance number in the future, the request will follow the process that was in place prior to the initiative.

Please see the enclosed compact disc with a final spreadsheet of the facilities and their new finance numbers.

Please contact Lindsey A. Butler at extension 7194 if you have questions concerning this matter.

Sincerely,

For Bruce A. Nicholson

Mr. Ivan D. Butts
President
National Association of Postal
Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Ivan:

As a matter of general interest, a national initiative to establish new finance numbers for facilities identified as using the same 6-digit finance number as another facility will begin in January 2023.

Establishing 6-digit finance numbers will not change an employee's tenure, job role, physical location, or duty station. This initiative will not impact bargaining unit employees or modify installations or bid clusters. However, employees may receive a new PS Form 50, Notice of Personnel Action, denoting a new finance number.

This process will increase visibility in each facility by better defining proper workload and complement needs in those locations. The anticipated completion date is October 2023.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

James Lloyd
Director
