### **Board Memo 017-2024: Public Meeting Notices to Facilities Regarding MPFR Results**

#### **Executive Board,**

NAPS HQ has been informed of USPS intent to provide notices announcing public meetings, stand up talks, and press releases to share results and additional feedback based on Mail Processing Facility Reviews (MPFR).

Below is a list of the P&DCs along with the public meeting dates.

- **Abilene, TX P&DC to North Texas, TX P&DC**
  - o Date & Time: Wednesday, February 21<sup>st</sup> at 3pm
  - o Location: Abilene Main Library, 202 Cedar Street, Abilene, TX 79601
- **Bemidji, MN P&DC to Fargo, ND P&DC**
  - o Date & Time: Wednesday, February 21<sup>st</sup> at 2pm
  - o Location: Sanford Center, 1111 Event Center Road NE, Bemidji, MN 56601
- **Casper, WY P&DC to Billings, MT P&DC**
  - o Date & Time: Wednesday, February 21<sup>st</sup> at 3pm
  - o Location: Hilton Garden Inn Center, 1150 N Poplar Street, Casper, WY 82601
- **Grand Junction, CO P&DC to Denver, CO P&DC**
  - o Date & Time: Thursday, February 22<sup>nd</sup> at 3pm
  - o Location: Colorado Mesa University, University Center, 110 North Avenue, Grand Junction, CO 81501
- **Midland, TX P&DC to Amarillo, TX P&DC**
  - o Date & Time: Thursday, February 22<sup>nd</sup> at 3pm
  - o Location: MLK Jr. Community Center – Auditorium, 2300 Butternut Lane, Midland, TX 79705
- **Peoria, IL P&DC to South Suburban, IL P&DC**
  - o Date & Time: Wednesday, February 21<sup>st</sup> at 12pm
  - o Location: Peoria Main Library, 107 NE Monroe Street, Peoria, IL 61602
- **Yakima, WA P&DC to Seattle, WA P&DC**
  - o Date & Time: Wednesday, February 28<sup>th</sup> at 3pm
  - o Location: Yakima Convention Center, 10 N 8<sup>th</sup> Street, Yakima, WA 98901

Please share this information with your membership.

Thank you, and be safe.

Dear Ivan:

This is in further reference to the Postal Service's January 10 correspondence (enclosed) announcing its intent to conduct Mail Processing Facility Reviews (MPFR) at seven locations. These reviews were conducted at the following locations to determine whether efficiency and/or service could be improved by consolidating mail processing operations into other mail processing facilities:

- Abilene, Texas (TX) Processing and Distribution Center (P&DC) to North Texas, TX P&DC
- Bemidji, Minnesota (MN) P&DC to Fargo, North Dakota (ND) P&DC
- Casper, Wyoming (WY) P&DC to Billings, Montana (MT) P&DC
- Grand Junction, Colorado (CO) P&DC to Denver, CO P&DC
- Midland, TX P&DC to Amarillo TX P&DC
- Peoria, Illinois (IL) P&DC to South Suburban, IL P&DC
- Yakima, Washington (WA) P&DC to Seattle WA P&DC

The initial results of all seven facility reviews support the business case for keeping each facility open and modernized as a Local Processing Center. The next step is to provide notice of a public meeting to share the initial results of the study and to allow members of the community to provide additional feedback. Enclosed are the following communication materials that are intended to be communicated today for each of the seven locations:

- Stand Up Talks (SUT) to employees
- Notices of Public Meetings
- Press Releases

Please contact Paulita Wimbush at ext. 4042 if you have questions regarding the matter.

Sincerely,

A handwritten signature in blue ink that reads "Paulita Wimbush".

January 10, 2024

Mr. Ivan Butts  
 President  
 National Association of Postal Supervisors  
 1727 King Street, Suite 400  
 Alexandria, VA 22314-2753

Certified Mail Number  
 9589 0710 5270 0684 7735 32

Dear Ivan:

This is an informational notice of the Postal Service's intent to conduct Mail Processing Facility Review (MPFR) studies in:

Abilene, Texas (TX)	Midland, Texas (TX)
Bemidji, Minnesota (MN)	Missoula, Montana (MT)
Brockton, Massachusetts (MA)	North Platte, Nebraska (NE)
Burlington, Vermont (VT)	Peoria, Illinois (IL)
Casper, Wyoming (WY)	Quad Cities, Illinois (IL)
Champaign, Illinois (IL)	Raleigh, North Carolina (NC)
Charleston, South Carolina (SC)	Reno, Nevada (NV)
Corpus Christi, Texas (TX)	Santa Barbara, California (CA)
Fresno, California (CA)	Sioux Falls, South Dakota (SD)
Grand Junction, Colorado (CO)	South Jersey, New Jersey (NJ)
Gulfport, Mississippi (MS)	Springfield, Illinois (IL)
Iron Mountain, Michigan (MI)	Tulsa, Oklahoma (OK)
Johnstown, Pennsylvania (PA)	Waterloo, Iowa (IA)
Manchester, New Hampshire (NH)	White River Junction, Vermont (VT)
McAllen, Texas (TX)	Yakima, Washington (WA)

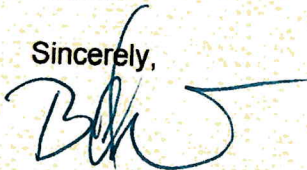

In accordance with Handbook PO-408, *Mail Processing Facility Review*, an MPFR determines the feasibility of changing mail processing operations to improve operational efficiency and/or service. An MPFR involves the consolidation of all originating and/or destinating distribution operations from one or more Post Offices/facilities into other automated processing facilities for the purpose of improving operational efficiency and/or service. The intent is to use Postal Service equipment, facilities, staff work hours and transportation more efficiently.

Specifically, feasibility studies will be conducted at thirty mail processing facilities to determine whether efficiency and/or service could be improved by consolidating some mail processing operations into other mail processing facilities. A list of the thirty facilities that will be studied is enclosed.

Enclosed are the Notices of Intent, Press Releases, Stand-Up Talks and Frequently Asked Questions that will be distributed today for the thirty facilities that will be studied.

Please contact Paulita Wimbush at extension 4042 if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read 'B. Nicholson', with a long horizontal flourish extending to the right.

Bruce A. Nicholson  
Director  
Labor Relations Policies and Programs

## Mail Processing Facility Review Notice of Public Input Meeting

### Yakima P&DC in Yakima, WA to Spokane P&DC in Spokane, WA

February 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Yakima Processing and Distribution Center (P&DC) facility in Yakima, WA.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their feedback and perspectives on the Initial Findings of the Mail Processing Facility Review (MPFR). The meeting will be held on Wednesday, February 28, 3:00 PM at the Yakima Convention Center, 10 N 8th St, Yakima WA 98901. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

Members of the local community may submit comments at <https://www.surveymonkey.com/r/mpfr-yakima-wa>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Yakima P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Yakima LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the Spokane P&DC in Spokane, WA.

**Future of Facility**

The Yakima P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

**Local Customers**

- Retail and other services currently available at the Yakima P&DC will not change.
- Business mail acceptance will remain the same.
- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

**Commercial Mailers**

- Mailers who presort mail will continue to receive appropriate postage discounts.
- Mailers who drop ship to Destination Sectional Center Facility (DSCF) can expect no changes if the MPFR is approved.

Please go to <https://www.surveymonkey.com/r/mpfr-yakima-wa> to submit written comments. All written comments must be received by March 14, 2024.

## **USPS Proposes Improvements to Mail Operations at Yakima Processing Facility**

*Facility to remain open and modernized as a Local Processing Center to improve mail and package flow through the region*

*Investments part of USPS 10-year Delivering for America plan to modernize the nation's aging postal network*

*Public meeting to be held Feb. 28*

YAKIMA, WA - As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service is conducting an evaluation of current operations and potential future uses of its Yakima Processing and Distribution Center (P&DC) facility in Yakima, WA.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

The initial results of the facility review support the business case for keeping the Yakima facility open and modernizing the facility as a Local Processing Center (LPC). The Yakima LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees – part of the Postal Service's \$40 billion investment in the nation's aging postal network.

Additionally, the business case supports transferring some mail processing operations to the Spokane P&DC in Spokane, WA. This would mean a significant percentage of the mail collected locally will travel across the wider USPS transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

A public meeting will be held on Wednesday, Feb. 28, 3:00 PM at the Yakima Convention Center, 10 N 8th St, Yakima WA 98901. USPS will share the initial results of the study and allow members of the community to provide oral feedback and perspectives on the Initial Findings of the Mail Processing Facility Review (MPFR). A summary of the MPFR will be posted on [about.usps.com](https://about.usps.com) at least one week prior to the public input meeting. Members of the local community may submit written comments at <https://www.surveymonkey.com/r/mpfr-yakima-wa> through Mar. 14, 2024. The public's input will be considered prior to a final decision.

The Postal Service will work closely with its unions and management associations throughout the facility review and will continually monitor the impact of any changes that are implemented and will adjust plans as necessary and appropriate.

###

**Please Note:** The United States Postal Service is an independent federal establishment, mandated to be self-financing and to serve every American community through the affordable, reliable and secure delivery of mail and packages to 167 million addresses six and often seven days a week. Overseen by a bipartisan Board of Governors, the Postal Service is implementing a 10-year transformation plan, [Delivering for America](#), to modernize the postal network, restore long-term financial sustainability, dramatically improve service across all mail and shipping categories, and maintain the organization as one of America's most valued and trusted brands.

The Postal Service generally receives no tax dollars for operating expenses and relies on the sale of postage, products and services to fund its operations.

For USPS media resources, including broadcast-quality video and audio and photo stills, visit the [USPS Newsroom](#). Follow us on [Twitter](#), [Instagram](#), [Pinterest](#) and [LinkedIn](#). Subscribe to the [USPS YouTube channel](#), like us on [Facebook](#) and enjoy our [Postal Posts blog](#). # **Stand-Up Talk**

## **February 6, 2024**

### **Mail Processing Facility Review** **Public Meeting to be held re: Yakima P&DC**

On January 10, we shared that we were beginning an evaluation of current operations and potential future uses for this facility. This review is part of our 10-year strategic Delivering for America plan and our \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

**The initial results of the facility review support the business case for keeping the Yakima P&DC facility open and modernized as a Local Processing Center (LPC).** Repurposing this facility as a Local Processing Center is consistent with the broader network redesign outlined in the Delivering For America Plan. The Yakima LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. It will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

Additionally, the business case supports transferring some mail processing operations to the Spokane P&DC. This will mean a significant percentage of the mail collected here will travel across our wider transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside our local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

As updates are made to the facility and its operations, there will be no career employee layoffs.

The Postal Service will hold a public meeting to allow the local community to provide their feedback and perspectives on the Initial Findings of the review on Wednesday, February 28, 3:00 PM at the Yakima Convention Center, 10 N 8th St, Yakima WA 98901. Attendance will be voluntary and off-the-clock for employees who choose to attend.

Comments on the proposal from employees and the public will be considered before any decision is made. Comments may be submitted at <https://www.surveymonkey.com/r/mpfr-yakima-wa>. You can submit your comments on the study up to 15 days after the public meeting.

Thank you for your attention. We will keep you updated as we move through the facility review process and additional initiatives to modernize our postal network.

# MAIL PROCESSING FACILITY REVIEW

## FREQUENTLY ASKED QUESTIONS

### 1. Why is USPS conducting a review of this facility?

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Yakima Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### 2. What did the Mail Processing Facility Review (MPFR) evaluate?

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Yakima P&DC to the Spokane P&DC in Spokane, WA. A significant percentage of the mail collected in Yakima will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Yakima facility, by investing in the Yakima facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment, and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Yakima facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### 3. When will a final decision be announced?

The Postal Service anticipates communicating initial findings in the coming month or two.

### 4. What does the facility review mean for local employees?

The review will not result in career employee layoffs. Our Delivering For America (DFA) plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Wednesday, February 28, 3:00 PM at the Yakima Convention Center, 10 N 8th St, Yakima WA 98901 or submit comments at <https://www.surveymonkey.com/r/mpfr-yakima-wa>. A summary of the MPFR will be posted on [about.usps.com](http://about.usps.com) at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

## Mail Processing Facility Review Notice of Public Input Meeting

### Abilene P&DC in Abilene, TX to North Texas P&DC in Coppell, TX

February 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Abilene Processing and Distribution Center (P&DC) facility in Abilene, TX.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their feedback and perspectives on the Initial Findings of the Mail Processing Facility Review (MPFR). The meeting will be held on Wednesday, February 21, 3:00 PM at Abilene Main Library, 202 Cedar St, Abilene TX 79601. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

Members of the local community may submit comments at <https://www.surveymonkey.com/r/mpfr-abilene-tx>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Abilene P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Abilene LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the North Texas P&DC in Coppell, TX.

**Future of Facility**

The Abilene P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

**Local Customers**

- Retail and other services currently available at the Abilene P&DC will not change.
- Business mail acceptance will remain the same.
- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

# **Stand-Up Talk**

## **February 6, 2024**

### **Mail Processing Facility Review** **Public Meeting to be held re: Abilene P&DC**

On January 10, we shared that we were beginning an evaluation of current operations and potential future uses for this facility. This review is part of our 10-year strategic Delivering for America plan and our \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

**The initial results of the facility review support the business case for keeping the Abilene P&DC facility open and modernized as a Local Processing Center (LPC).** Repurposing this facility as a Local Processing Center is consistent with the broader network redesign outlined in the Delivering For America Plan. The Abilene LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. It will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

Additionally, the business case supports transferring some mail processing operations to the North Texas P&DC in Coppell, TX. This will mean a significant percentage of the mail collected here will travel across our wider transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside our local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

As updates are made to the facility and its operations, there will be no career employee layoffs.

The Postal Service will hold a public meeting to allow the local community to provide their feedback and perspectives on the Initial Findings of the review on Wednesday, February 21, 3:00 PM at Abilene Main Library, 202 Cedar St, Abilene TX 79601. Attendance will be voluntary and off-the-clock for employees who choose to attend.

Comments on the proposal from employees and the public will be considered before any decision is made. Comments may be submitted at <https://www.surveymonkey.com/r/mpfr-abilene-tx>. You can submit your comments on the study up to 15 days after the public meeting.

Thank you for your attention. We will keep you updated as we move through the facility review process and additional initiatives to modernize our postal network.

# MAIL PROCESSING FACILITY REVIEW

## FREQUENTLY ASKED QUESTIONS

### 1. Why is USPS conducting a review of this facility?

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Abilene Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### 2. What did the Mail Processing Facility Review (MPFR) evaluate?

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Abilene P&DC to the North Texas P&DC in Coppell, TX. A significant percentage of the mail collected in region will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Abilene facility, by investing in the Abilene facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Abilene facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### 3. When will a final decision be announced?

The Postal Service anticipates communicating initial findings in the coming month or two.

### 4. What does the facility review mean for local employees?

The review will not result in career employee layoffs. Our Delivering For America plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Wednesday, February 21, 3:00 PM at Abilene Main Library, 202 Cedar St, Abilene TX 79601 or submit comments at <https://www.surveymonkey.com/r/mpfr-abilene-tx>. A summary of the MPFR will be posted on [about.usps.com](http://about.usps.com) at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

## Mail Processing Facility Review Notice of Public Input Meeting

### Bemidji P&DC in Bemidji, MN to Fargo P&DC in Fargo, ND

Feb 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Bemidji Processing and Distribution Center (P&DC) facility in Bemidji MN.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their additional feedback and perspectives on the Initial Findings of the MPFR. The meeting will be held on Wednesday, February 21, 2:00 PM at the Sanford Center, 1111 Event Center Rd NE, Bemidji MN 56601. A summary of the MPFR will be posted on [about.usps.com](https://www.usps.com/about) at least one week prior to the public input meeting.

Members of the local community may submit comments at <https://www.surveymonkey.com/r/mpfr-bemidji-mn>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Bemidji P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Bemidji LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the Fargo P&DC.

#### **Future of Facility**

The Bemidji P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

#### **Local Customers**

- Retail and other services currently available at the Bemidji P&DC will not change.
- Business mail acceptance will remain the same.

- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

**Commercial Mailers**

- Mailers who presort mail will continue to receive appropriate postage discounts.
- Mailers who drop ship to Destination Sectional Center Facility (DSCF) can expect no changes if the MPFR is approved.

**Please go to <https://www.surveymonkey.com/r/mpfr-bemidji-mn> to submit written comments. All written comments must be received by March 7, 2024.**

# MAIL PROCESSING FACILITY REVIEW

## FREQUENTLY ASKED QUESTIONS

### **1. Why is USPS conducting a review of this facility?**

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Bemidji Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### **2. What did the MPFR evaluate?**

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Bemidji P&DC to the Fargo P&DC in Fargo ND. A significant percentage of the mail collected in Bemidji will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the Bemidji area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Bemidji facility, by investing in the Bemidji facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment, and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Bemidji facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### **3. When will a final decision be announced?**

The Postal Service anticipates communicating initial findings in the coming month or two.

### **4. What does the facility review mean for local employees?**

The review will not result in career employee layoffs. Our DFA plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Wednesday, February 21, 2:00 PM at the Sanford Center, 1111 Event Center Rd NE, Bemidji MN 56601 or submit comments at <https://www.surveymonkey.com/r/mpfr-bemidji-mn>. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

**Mail Processing Facility Review  
Notice of Public Input Meeting  
Casper P&DC in Casper WY to Billings P&DC in Billings MT**

Feb 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Casper Processing and Distribution Center (P&DC) facility in Casper WY.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their additional feedback and perspectives on the Initial Findings of the MPFR. The meeting will be held on Wednesday, February 21, 3:00 PM at Hilton Garden Inn Center, 1150 N Poplar St, Casper WY 82601. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

Members of the local community may submit comments at:  
<https://www.surveymonkey.com/r/mpfr-casper-wy>.

Below are some preliminary highlights from the study:

**Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Casper P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Casper LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. ## **USPS Proposes Improvements to Mail Operations at Casper Processing Facility**

*Facility to remain open and modernized as a Local Processing Center to improve mail and package flow through the region*

*Investments part of USPS 10-year Delivering for America plan to modernize the nation's aging postal network*

*Public meeting to be held Feb. 21*

Casper WY — As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service is conducting an evaluation of current operations and potential future uses of its Casper Processing and Distribution Center (P&DC) facility in Casper WY.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

The initial results of the facility review support the business case for keeping the Casper facility open and modernizing the facility as a Local Processing Center (LPC). The Casper LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees – part of the Postal Service's \$40 billion investment in the nation's aging postal network.

Additionally, the business case supports transferring some mail processing operations to the Billings P&DC in Billings, MT. This would mean a significant percentage of the mail collected locally will travel across the wider USPS transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

A public meeting will be held on Wednesday, February 21, 3:00 PM at the Hilton Garden Inn Center, 1150 N Poplar St, Casper WY 82601. USPS will share the initial results of the study and allow members of the community to provide additional oral feedback and perspectives on the Initial Findings of the MPFR. A summary of the MPFR will be posted on [about.usps.com](https://www.usps.com/about-usps) at least one week prior to public input meeting. Members of the local community may submit written comments at <https://www.surveymonkey.com/r/mpfr-casper-wy> through Mar.7, 2024. The public's input will be considered prior to a final decision.

The Postal Service will work closely with its unions and management associations throughout the facility review and will continually monitor the impact of any changes that are implemented and will adjust plans as necessary and appropriate.

## **February 6, 2024**

### **Mail Processing Facility Review** **Public Meeting to be held re: Casper P&DC**

On January 10, we shared that we were beginning an evaluation of current operations and potential future uses for this facility. This review is part of our 10-year strategic Delivering for America plan and our \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

**The initial results of the facility review support the business case for keeping this facility open and modernized as a Local Processing Center (LPC).** Repurposing this facility as a Local Processing Center is consistent with the broader network redesign outlined in the DFA Plan. Casper LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. It will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

Additionally, the business case supports transferring some mail processing operations to the Billings P&DC. This will mean, a significant percentage of the mail collected here will travel across our wider transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside our local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

As updates are made to the facility and its operations, there will be no career employee layoffs.

The Postal Service will hold a public meeting to allow the local community to provide their feedback and perspectives on the Initial Findings of the review on Wednesday, February 21, 3:00 PM at the Hilton Garden Inn Center, 1150 N Poplar St, Casper WY 82601. Attendance will be voluntary and off-the-clock for employees who choose to attend.

Comments on the proposal from employees and the public will be considered before any decision is made. Comments may be submitted at <https://www.surveymonkey.com/r/mpfr-casper-wy>. You can submit your comments on the study up to 15 days after the public meeting.

Thank you for your attention. We will keep you updated as we move through the facility review process and additional initiatives to modernize our postal network.

## **MAIL PROCESSING FACILITY REVIEW FREQUENTLY ASKED QUESTIONS**

### **1. Why is USPS conducting a review of this facility?**

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Casper Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### **2. What did the MPFR evaluate?**

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Casper P&DC to the Billings P&DC. A significant percentage of the mail collected in Casper will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the Casper area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Casper facility, by investing in the Casper facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment, and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Casper facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### **3. When will a final decision be announced?**

The Postal Service anticipates communicating initial findings in the coming month or two.

### **4. What does the facility review mean for local employees?**

The review will not result in career employee layoffs. Our DFA plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Wednesday, February 21, 3:00 PM at the Hilton Garden Inn Center, 1150 N Poplar St, Casper WY 82601 or submit comments at <https://www.surveymonkey.com/r/mpfr-casper-wy>. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

## Mail Processing Facility Review Notice of Public Input Meeting

### Grand Junction P&DC in Grand Junction, CO to Denver P&DC in Denver, CO

February 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Grand Junction Processing and Distribution Center (P&DC) facility in Grand Junction, CO.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their feedback and perspectives on the Initial Findings of the Mail Processing Facility Review (MPFR). The meeting will be held on Thursday, February 22, 3:00 PM at Colorado Mesa University, University Center, 110 North Ave, Grand Junction CO 81501. A summary of the MPFR will be posted on [about.usps.com](https://www.usps.com/about-usps) at least one week prior to the public input meeting.

Members of the local community may submit comments at <https://www.surveymonkey.com/r/mpfr-grand-junction-co>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Grand Junction P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Grand Junction LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the Denver P&DC in Denver, CO.

**Future of Facility**

The Grand Junction P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

**Local Customers**

- Retail and other services currently available at the Grand Junction P&DC will not change.
- Business mail acceptance will remain the same.
- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

**Commercial Mailers**

- Mailers who presort mail will continue to receive appropriate postage discounts.
- Mailers who drop ship to Destination Sectional Center Facility (DSCF) can expect no changes if the MPFR is approved.

Please go to <https://www.surveymonkey.com/r/mpfr-grand-jection-co> to submit written comments. All written comments must be received by March 8, 2024.

# MAIL PROCESSING FACILITY REVIEW

## FREQUENTLY ASKED QUESTIONS

### 1. Why is USPS conducting a review of this facility?

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Grand Junction Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### 2. What did the Mail Processing Facility Review (MPFR) evaluate?

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Grand Junction P&DC to the Denver P&DC in Denver, CO. A significant percentage of the mail collected in Grand Junction will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Grand Junction facility, by investing in the Grand Junction facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Grand Junction facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### 3. When will a final decision be announced?

The Postal Service anticipates communicating initial findings in the coming month or two.

### 4. What does the facility review mean for local employees?

The review will not result in career employee layoffs. Our Delivering For America plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Thursday, February 22, 3:00 PM at Colorado Mesa University, University Center, 110 North Ave, Grand Junction CO 81501 or submit comments at <https://www.surveymonkey.com/r/mpfr-grand-jefferson-co>. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

## Mail Processing Facility Review Notice of Public Input Meeting

### Midland P&DC in Midland, TX to Amarillo P&DC in Amarillo, TX

February 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Midland Processing and Distribution Center (P&DC) facility in Midland, TX.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their additional feedback and perspectives on the Initial Findings of the MPFR. The meeting will be held on Thursday, February 22, 3:00 PM at the MLK Jr. Community Center - Auditorium, 2300 Butternut Ln, Midland TX 79705. A summary of the MPFR will be posted on [about.usps.com](https://about.usps.com) at least one week prior to the public input meeting.

Members of the local community may submit comments at: <https://www.surveymonkey.com/r/mpfr-midland-tx>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Midland P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Midland LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the Amarillo P&DC.

#### **Future of Facility**

The Midland P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

**Local Customers**

- Retail and other services currently available at the Midland P&DC will not change.
- Business mail acceptance will remain the same.
- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

**Commercial Mailers**

- Mailers who presort mail will continue to receive appropriate postage discounts.
- Mailers who drop ship to Destination Sectional Center Facility (DSCF) can expect no changes if the MPFR is approved.

## **February 6, 2024**

### **Mail Processing Facility Review** **Public Meeting to be held re: Midland P&DC**

On January 10, we shared that we were beginning an evaluation of current operations and potential future uses for this facility. This review is part of our 10-year strategic Delivering for America plan and our \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

**The initial results of the facility review support the business case for keeping this facility open and modernized as a Local Processing Center (LPC).** Repurposing this facility as a Local Processing Center is consistent with the broader network redesign outlined in the DFA Plan. The Midland LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. It will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

Additionally, the business case supports transferring some mail processing operations to the Amarillo P&DC in Amarillo, TX. This will mean, a significant percentage of the mail collected here will travel across our wider transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside our local area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

As updates are made to the facility and its operations, there will be no career employee layoffs.

The Postal Service will hold a public meeting to allow the local community to provide their feedback and perspectives on the Initial Findings of the review on Thursday, February 22, 3:00 PM at the MLK Jr. Community Center - Auditorium, 2300 Butternut Ln, Midland TX 79705. Attendance will be voluntary and off-the-clock for employees who choose to attend.

Comments on the proposal from employees and the public will be considered before any decision is made. Comments may be submitted at <https://www.surveymonkey.com/r/mpfr-midland-tx>. You can submit your comments on the study up to 15 days after the public meeting.

Thank you for your attention. We will keep you updated as we move through the facility review process and additional initiatives to modernize our postal network.

# MAIL PROCESSING FACILITY REVIEW

## FREQUENTLY ASKED QUESTIONS

### 1. Why is USPS conducting a review of this facility?

This review is part of a \$40 billion investment strategy to upgrade and improve processing, transportation, delivery networks and employee experiences across the country. The Midland Processing and Distribution Center (P&DC) facility has been selected as a candidate for evaluation of its current operations and potential future uses that may lead to overall modernization and enhancement initiatives at the facility.

The review will not result in this facility's closure or career employee layoffs.

### 2. What did the Mail Processing Facility Review (MPFR) evaluate?

In connection with the review, the Postal Service evaluated the following:

- a. Whether efficiency could be increased by transferring some mail processing operations currently performed at the Midland P&DC to the Amarillo P&DC. A significant percentage of the mail collected in Midland will travel across our wider transportation and processing network over significant distances to reach their final destinations. Mail and packages destined for outside the Midland area may receive better service and be more cost effectively distributed by aggregating it with mail and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.
- b. Whether efficiency can be increased, and service improved, regardless of any determination to transfer some mail processing operations out of the Midland facility, by investing in the Midland facility to redesign mail processing operations to accommodate changing mail products and mail flow with modern operating strategies, equipment, and improved employee amenities.
- c. Whether efficiency can be improved and/or service enhanced, regardless of any determination to transfer some mail processing operations out of the Midland facility, by expanding operations at the facility including adding Sorting & Delivery Center functions currently being deployed throughout the nation, incorporating expanded retail functions currently being evaluated and deployed throughout the nation, and/or increasing local package delivery functions including local transportation initiatives supporting new products being introduced.

### 3. When will a final decision be announced?

The Postal Service anticipates communicating initial findings in the coming month or two.

### 4. What does the facility review mean for local employees?

The review will not result in career employee layoffs. Our Delivering For America (DFA) plan is focused on improving the workplace experience for all employees by investing in facility conditions – including better space and lighting. Throughout the review process, we will

continue to communicate regularly with the unions and management associations to support local employees as appropriate.

## **5. How can the public provide input in the process?**

Members of the local community may provide feedback and perspectives on the Initial Findings of the MPFR at a public meeting to be held on Thursday, February 22, 3:00 PM at the MLK Jr. Community Center - Auditorium, 2300 Butternut Ln, Midland TX 79705 or submit comments at <https://www.surveymonkey.com/r/mpfr-midland-tx>. A summary of the MPFR will be posted on *about.usps.com* at least one week prior to the public input meeting.

## **6. How will local Post Office or retail operations be impacted by the review process?**

The purpose of conducting this review and implementing our 10-year strategic plan is to improve service delivery and our overall retail experience. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will not slow down as a result of this review.

## **7. What would repurposing this facility look like?**

While it may be determined that moving some mail processing operations from this facility is a good business decision, it is highly likely under those circumstances that the facility will be modernized and repurposed as a Local Processing Center, a Sorting & Delivery Center, or both, consistent with the broader network redesign outlined in the DFA Plan. Any such repurposing will result in a revitalized, modernized, and upgraded facility with improved employee amenities and a better working environment.

## **8. What is a Local Processing Center (LPC)?**

Local Processing Centers are critical nodes in our new end-to-end network model. They are the connective node between Regional Processing & Distribution Centers (RPDCs) to Sorting & Delivery Centers – and will ensure a streamlined flow of mail and packages in a logical and integrated manner. As an LPC, the facility amenities – including lighting, space, and bathrooms – would be improved.

## **9. What is a Sorting & Delivery Center (S&DC)?**

Within a region, S&DCs will expand our network reach. S&DCs will aggregate delivery units into fewer, larger, and centrally located sites to provide faster and more reliable mail and package delivery over a greater geographic area, as compared to traditional delivery units.

As with RPDCs, S&DCs will be repurposed existing facilities as well as new buildings. In each S&DC, we will install package sorting equipment to reduce manual handlings and improve throughput. Employee amenities such as lighting, bathrooms, and breakrooms, will also be improved.

We have opened 29 S&DCs since the DFA plan launched. We plan to open another 38 in coming months.

**10. What are the long-term benefits of implementing the Delivering for America Plan and modernizing the postal network?**

There are many benefits derived from realizing the Delivering for America 10-year Plan. Implementation of the plan will lead to a better everything including better service performance for our customers; better employee morale and retention rates; better facility conditions; a better carbon footprint; better sequencing of mail and packages; better opportunities for our customers to reach a larger population in less time, and overall, a better customer experience.

## Mail Processing Facility Review Notice of Public Input Meeting

### Peoria P&DC in Peoria IL to South Suburban P&DC in Bedford Park IL

Feb 6, 2024

As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service announced that it is conducting an evaluation of current operations and potential future uses of its Peoria Processing and Distribution Center (P&DC) facility in Peoria IL.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

Public input will be considered as part of the review. A public meeting will be held to share the initial results of the study and to allow members of the local community to provide their additional feedback and perspectives on the Initial Findings of the MPFR. The meeting will be held on Wednesday, February 21, 12:00 PM at the Peoria Main Library, 107 NE Monroe St., Peoria IL 61602. A summary of the MPFR will be posted on [about.usps.com](https://www.usps.com/about) at least one week prior to the public input meeting.

Members of the local community may submit comments at:  
<https://www.surveymonkey.com/r/mpfr-peoria-il>.

Below are some preliminary highlights from the study:

#### **Business Case**

The Postal Service is investing heavily in operations as it moves to modernize the nation's postal network, improve customer service, and achieve the organization's goal of 95% on-time delivery across all mail products.

The initial results of the facility review support the business case for keeping the Peoria P&DC open and modernizing the facility as a Local Processing Center (LPC) with simplified processes and standardized layouts. The Peoria LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees. Additionally, the business case supports transferring some mail processing operations to the South Suburban P&DC.

#### **Future of Facility**

The Peoria P&DC will remain open and will be modernized. It will be repositioned as a Local Processing Center for destinating mail processing. It is expected that this facility will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem.

**Local Customers**

- Retail and other services currently available at the Peoria P&DC will not change.
- Business mail acceptance will remain the same.
- A local postmark will continue to be available at retail post offices.
- Delivery times of mail to residence and businesses should not change throughout this review.

**Commercial Mailers**

- Mailers who presort mail will continue to receive appropriate postage discounts.
- Mailers who drop ship to Destination Sectional Center Facility (DSCF) can expect no changes if the MPFR is approved.

**Please go to <https://www.surveymonkey.com/r/mpfr-peoria-il> to submit written comments. All written comments must be received by March 7, 2024.**

## **USPS Proposes Improvements to Mail Operations at Peoria Processing Facility**

*Facility to remain open and modernized as a Local Processing Center to improve mail and package flow through the region*

*Investments part of USPS 10-year Delivering for America plan to modernize the nation's aging postal network*

*Public meeting to be held Feb. 21*

PEORIA IL — As part of a \$40 billion investment strategy to upgrade and improve the Postal processing, transportation, and delivery networks, the U.S. Postal Service is conducting an evaluation of current operations and potential future uses of its Peoria Processing and Distribution Center (P&DC) facility in Peoria IL.

The USPS ten-year Delivering for America (DFA) plan includes initiatives to improve organizational and operational processes and actively make the Postal Service an efficient, high-performing, world class logistics and delivery provider. Improvements to Postal operations will enhance the level of service provided to the public; drive innovation and enable a broader array of postal products and services; enhance organizational competitiveness; improve efficiency and lower the cost to operate; and provide better workplaces and careers for Postal Service employees.

This specific facility review will inform the best allocation of resources and strategies to improve customer service and to achieve significant cost savings through operational precision and efficiency. Business mail entry, Post Office, station, and branch retail services are not expected to change, and delivery services will be unaffected throughout this review. The evaluation is a first step in the Postal Service review and investment process in this facility and will not result in this facility's closure or career employee layoffs.

The initial results of the facility review support the business case for keeping the Peoria facility open and modernizing the facility as a Local Processing Center (LPC). The Peoria LPC will be a critical node to the unified movement of mail and packages across the regional processing and transportation ecosystem. The facility will offer expanded and streamlined package processing capabilities in the local market and new workplace amenities for USPS employees – part of the Postal Service's \$40 billion investment in the nation's aging postal network.

Additionally, the business case supports transferring some mail processing operations to the South Suburban P&DC in Bedford Park, IL. This would mean a significant percentage of the mail collected locally will travel across the wider USPS transportation and processing network over significant distances to reach their final destinations in a more efficient manner. Mail and packages destined for outside the local area may receive better service and be more cost effectively distributed by aggregating it with mail

and packages from other areas going to the same places that will likewise utilize the wider postal network and be transported significant distances from where the mail originated.

A public meeting will be held on Wednesday, February 21, 12:00 PM at the Peoria Main Library, 107 NE Monroe St., Peoria IL 61602. USPS will share the initial results of the study and allow members of the community to provide additional oral feedback and perspectives on the Initial Findings of the MPFR. A summary of the MPFR will be posted on [about.usps.com](https://about.usps.com) at least one week prior to public input meeting. Members of the local community may submit written comments at <https://www.surveymonkey.com/r/mpfr-peoria-il> through Mar.7, 2024. The public's input will be considered prior to a final decision.

The Postal Service will work closely with its unions and management associations throughout the facility review and will continually monitor the impact of any changes that are implemented and will adjust plans as necessary and appropriate.
