

RECEIVED  
MAR 30 2022

March 25, 2022

Mr. Ivan Butts  
President  
National Association of Postal Supervisors  
1727 King Street, Suite 400  
Alexandria, VA 22314-2753

Dear Ivan:

This is in reference to the September 21, 2021, general interest notification relating to the installation of WebCam devices in various installations to monitor/view mail conditions and the status of mail processing during Peak season.

You were advised that there were approximately 189 offices where the observation of mail conditions on the workroom floor would be conducted. You were further advised that some of the 189 offices were already equipped with WebCam devices.

During the 2021 Peak season, the Webcams proved to be a valuable tool in evaluating and monitoring overall mail flow conditions on the workroom floor. The Postal Service determined that this method of monitoring mail flow conditions was an excellent tool for making mail processing related decisions. In light of this, we are extending the use of WebCams to monitor mail processing operations.

Please find enclosed an updated list of installations where WebCam monitoring of the mail is being conducted.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

  
for

David E. Mills  
Director  
Labor Relations Policies and Programs
