NAPS HEADQUARTERS

June 14, 2022

Mr. Ivan D. Butts
President
National Association of Postal Supervisors
1727 King St., STE 400
Alexandria, VA 22314-2753

Certified Mail Tracking Number:
7020 3160 0002 0327 0809

Dear Ivan:

This letter is follow-up to the Postal Service's most recent correspondence dated February 11 (enclosed), regarding the development of a new Computerized Maintenance Management System (CMMS) to replace the Electronic Maintenance Reporting and Scheduling (eMARS) system that is currently being used.

As previously informed, the new system will provide a more detailed description of the daily tasks maintenance personnel perform to include work orders, equipment records, preventative maintenance, inventory, workload scheduling, and reactive maintenance. The Postal Service plans to conduct observations, interviews, surveys and focus groups with craft and Executive and Administrative Scheduled (EAS) employees in maintenance operations.

The observations referenced in the February 11 letter have not taken place. The Postal Service is modifying the observation sites to the following locations:

- Denver, Colorado National Distribution Center (NDC)
- Denver, CO Processing and Distribution Center (P&DC)
- Austin, Texas P&DC
- Austin, TX Annex
- Southern Maryland P&DC
- Washington, DC NDC

The observations will last approximately one week in each facility.

If there are any questions concerning this matter, please contact Thomas Elias at 301-300-5022.

Sincerely,

A handwritten signature in blue ink, appearing to read "Shannon Richardson".

Shannon Richardson
Director
Contract Administration (APWU)

Dear Ivan:

This letter is follow-up to the Postal Service's correspondence dated October 18, 2021 (enclosed), regarding the development of a new Computerized Maintenance Management System (CMMS) to replace the Electronic Maintenance Reporting and Scheduling (eMARS) system that is currently being used.

As previously informed, the new system will provide a more detailed description of the daily tasks maintenance personnel perform to include work orders, equipment records, preventative maintenance, inventory, workload scheduling, and reactive maintenance. The Postal Service plans to conduct observations, interviews, surveys and focus groups with craft and Executive and Administrative Scheduled (EAS) employees in maintenance operations.

The observations are planned to take place at the Denver, Colorado Network Distribution Center (NDC), Kansas City, Missouri Processing and Distribution Center (P&DC), Santa Clarita, California P&DC, Austin, Texas P&DC, Birmingham, Alabama P&DC, and North Houston, Texas P&DC. The observations will last approximately one week in each facility. Participation will be voluntary.

If there are any questions concerning this matter, please contact Dion Mealy at 202-507-0193.

Sincerely,

A handwritten signature in black ink, appearing to read "Shannon Richardson".

Shannon Richardson
Director
Contract Administration (APWU)
