Dear Ivan:

After carefully considering the relevant factors found in Article 32 of the National Agreement, the Postal Service has made the decision to contract with a third-party to perform the maintenance of the Electric Vehicle Supply Equipment (EVSE) during its 3-year warranty period. The Next Generation Delivery Vehicle (NGDV) Battery Electric Vehicle (BEV) require EVSE.

The scope of this project is to support the EVSE being deployed in approximately 800 Post Office and VMF facilities nationwide by contracting suppliers that are highly skilled and experienced. The work will be done in accordance with the warranty and will include work not covered by the warranty. Additionally, the supplier will provide parts.

No significant impact to the bargaining unit is anticipated with this outsourcing.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

James Lloyd
Director
Labor Relations Policies and Programs
