Mr. Ivan Butts
President
National Association of Postal Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Mr. Butts:

As a matter of general interest, the Postal Service plans to pilot test a Morgan Olson Vehicle. The Morgan Olson C250 is an internal combustion engine (ICE) vehicle which uses pump gasoline. The C250 has approximately 250 cubic feet of cargo space. The purpose of the test is to evaluate the performance and maneuverability of the vehicle when utilized in Postal Service operations.

The test will be conducted November 6 through February 16 2024, at the locations listed below:

Region	District	Address	City	State	ZIP
Atlantic	Maryland	215 PARK ST	Cumberland	MD	215029998
Atlantic	Newyork 3	8 MEMORIAL DR	Cattaraugus	NY	147199998
Southern	Texas 1	103 MORSE RD	Bivins	TX	755559998
Central	MN-ND	3970 MAIN ST	Kettle River	MN	557578647
Westpac	CO-WY	300 E MILLER CT	Castle Rock	CO	801048436
Atlantic	VIRGINIA	5900 BARCLAY DF	Alexandria	VA	223159998

During the test, the C250 will be operated by employees who normally operate the Flex Fuel Vehicles (FFV) and/or Long Life Vehicles (LLV).

If you have any questions on this matter, please contact me at extension 3946.

Sincerely,

James Lloyd
Director
Contract Administration (NALC)
