Board Memo 021-2022: NAPS Training Page Launched

Executive Board,

As we continue to evolve our website to provide better resources and educational data to assist working EAS in the field and NAPS Leaders, NAPS Headquarters, in conjunction with the Executive Board training committee last week, launched a new training page found [here](#). The page can also be found under the Members tab on our website. On this page, you will find reference materials including the updated *NAPS Officer Training Manual* and Branch Officer training materials.

Please share this information with your membership.

Thank you and be safe.
