

JUN 28 2022

June 23, 2022

Mr. Ivan Butts
President
National Association of Postal Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Ivan,

This is a follow up to the March 31 notification wherein you were notified that the Postal Service was conducting a pilot test entitled, *F4 Back Office Pilot*. This pilot test was designed to improve efficiency in our AM Function 4 operations with a view toward achieving earlier Distribution Up Times (DUTs).

The F4 Back Office pilot test was successful, and the Postal Service has made the determination that going forward, this will become the process flow for AM distribution.

The Postal Service initially plans to onboard 751 sites in three different phases, in order to provide the new sites with transitional support for the first 12 weeks of this process. The Postal Service also plans to onboard additional sites across the country in an effort to ensure the use of a uniform AM distribution process.

We have enclosed a copy of an updated Mandatory Stand Up Talk detailing the process and a listing of the 751 additional locations.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E. Mills".

Stand-Up Talk: F4 Back Office Play

July 7, 2022

The success of a delivery operation relies on an effective and efficient mail Distribution operation (F4). Distribution Up Time (DUT) occurs when all mail types; parcels, flats, and letters, are distributed to the carriers. To improve efficiency in our AM Distribution operations and achieve an earlier DUT based on earned workload, we will be implementing the F4 Back Office Play in 751 USPS delivery units.

What does this mean?

This pilot will use a daily management system of F4 back-office plays for each level of the organization, to streamline F4 distribution and improve DUT. These plays are focused on:

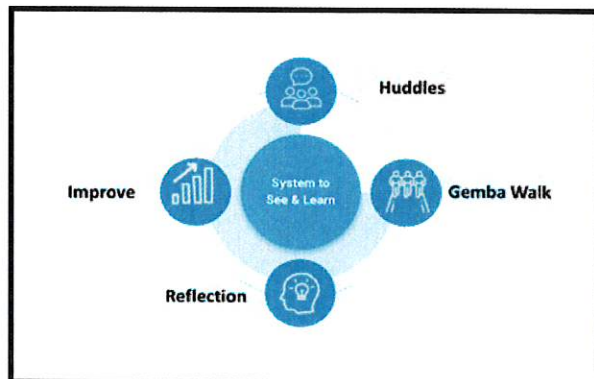

- Staffing and scheduling
- Floor layout
- Performance management
- Pre-planning for success
- Daily huddle
- Gemba walk
- Reflection
- Improvement

With package processing being our most labor-intensive operation and our growing business, we will concentrate on package sortation, setup, and working packages first.

Following the back-office play will ensure we maximize our mail processing window. Sales/Service Distribution Associates (SSDAs), who drive the 24-hour clock and provide on time mail processing, are the key to success.

The F4 Back Office Play is implemented in phases beginning July 9th, July 16th, and July 23rd. Progress will be measured beginning in week 3 after implementation date, through week 9.

Thank You for all you do each day
