Dear Mr. Butts:

After carefully considering the relevant factors found in the Article 32 of the National Agreement, the Postal Service has made the decision to outsource the work necessary to perform the modernization upgrades of the Advanced Facer Cancellor System 200 (AFCS200).

The purpose of the upgrades is to extend the service life of the AFCS200. The upgrades include replacing outdated cameras, computers, various hardware components and an overhaul to the current software system.

This modernization of the AFCS200 will exceed the current reliability and efficiency of the machines and allow them to remain in service another 10 years. The work will be conducted in accordance with the warranty requirements and will include work not covered by the warranty. Additionally, the supplier will provide parts.

There is no significant impact to the bargaining unit anticipated with this outsourcing.

Please contact Bruce Nicholson at extension 7773, if you have questions concerning this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Lloyd".

James Lloyd
Director
Contract Administration (NALC)
