Start with the Communication Plan

What are Huddles?

Huddle is more than just a staff meeting. They are a regular discussion in which teams address safety issues, the previous days performance and or new process to existing procedures. More specifically, the team and employees who attend the huddle can determine what they want to discuss during their huddle.

How often should the Huddles occur?

Huddles should be a standard practice for every operation that take place everyday.

Why should you do a Huddle?

The purpose of Huddles are to drive employee engagement and to better problem solve. This is accomplished through the 3Rs: Recognition, Readiness and Reflection. Each huddles agenda will encompass these three concepts in the overall discussion. As a result, these discussion will drive better performance, communication between the team and managers and engagement in improvement.

24-Hour Arrow / MAL Key Management System

As part of its strategy to increase security and accountability for arrow keys, USPS is implementing the 24-Hour Arrow Key Accountability process to provide visibility on each arrow key. EIN & arrow key barcodes will be used to manage the daily arrow key transfer process, providing the hand-to-hand accountability. MDD-TR / MIO scanners will be utilized to scan barcodes associated with arrow keys. These scans will provide AM/PM accountability and manage the Check in / Check out key transfer process. Activities logs in RIMS will be kept for 2 years along with Daily Key status update reports. Push reports will be provided for lost, stolen or missing Keys. Unit monthly certification will be the record for unit system data integrity.

National Rollout

Phase I – Atlantic / Central will launch 8/22/2023.

- ~~Learn & Grows will be available on August 8, 9 & 10th.~~

Phase II – Southern / Westpac will launch 9/19/2023.

- ~~Learn & Grows will be available on September 5, 6 & 7th.~~

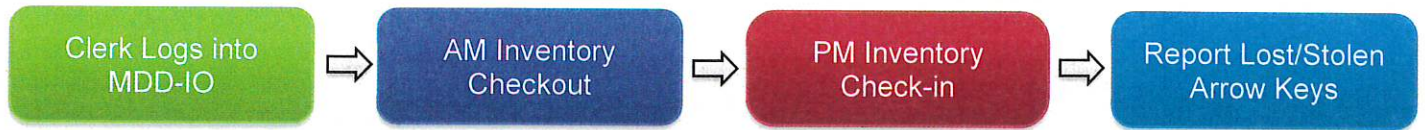

Management / Accountable Clerk – will be considered “Sensitive Users” and will manage all sensitive material within the Arrow Key Accountability program in RIMS. These users will be allowed to print barcodes and read/analyze essential reports. They will also conduct the daily AM Inventory verification by scanning each arrow key barcode. This process will be completed at the end of the day for the PM Inventory process. Any missing, lost, or stolen keys must be reported to the USPIS.

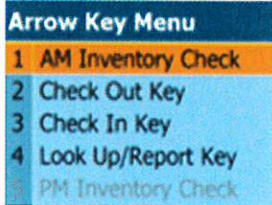

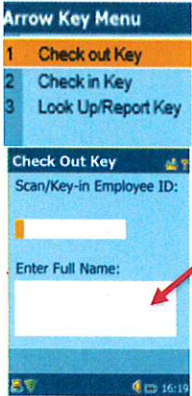

Clerk: MDD-IO – will access the 24-hour key accountability program by pressing and releasing the “Red” button and “K” button and initiate the **clerk** Arrow key accountability process. Clerks will select “Check out Key”, scan the arrow key barcode and the Supervisor / Accountable Clerk ID badge. To return arrow key, the clerk will select “Check in Key”, scan the barcode and Supervisor / Accountable Clerk ID badge. Clerks also have a “Look up / Report Key function to view a specific key assigned or received.

Carrier: MDD-TR – will access the 24-hour key accountability program by selecting “Arrow Key Management” and initiate the **carrier** Arrow key accountability process. Carriers will select “Receive Key”, scan the arrow key barcode and the Supervisor / Accountable Clerk ID badge. To return arrow key, carriers will select “Arrow Key Management”, then “Return Key”. Carriers will be given an option to select “with clerk / Supervisor” or “without clerk / Supervisor” and place the key in a secure location. Under Arrow Key Management, carriers can also select the “Transfer Key” option and select from a list of available Arrow key(s) and scan receiving employees’ badge. Carriers also have a Look up / Report Key or Transfer function to identify a specific key assigned or received.

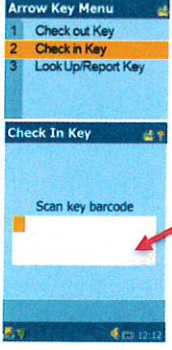

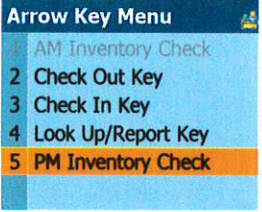

All employees must report missing and/or lost keys to immediate supervisor. Managers / Supervisors must notify the Inspection Service of any lost keys: **1-877-696-5322**. Call **911** in case of emergency or stolen keys. In addition, management must update Arrow key inventory in RADAR to maintain accurate inventory.
