## Concerns:

- F1 and Plant Modernization team redesigned the North Metro LPC
  - Installed APPS and APBS to what was previously identified as Delivery F4 space
- Layout change resulted in space for delivery changing – carriers shifted to accommodate new area
  - Due to less space for delivery, the lowest return from the FRT (Lilburn – 34 routes) was removed from the OSL

**North Metro S&DC will have 141 routes**

# SDC Spoke Move Modifications

# Columbus GA SDC – Fort Benning

- The Post Office (Fort Benning) is situated on the base, and all 6 city routes deliver mail within the base
- Carriers currently clear security in their POV. All six carriers would now need to clear security in and out of the base at 5-10 minutes each way
- The Base has invested a significant dollar amount into the building the carriers are housed in
- Relocating the carriers from the base would potentially cause a congressional complaint
- Parking and interior work floor space at the SDC will support moving in Midland as a replacement site
- **Propose to remove Fort Benning and replace with Midland MPO**

# Maximum Spoke Route Moves

- Currently the maximum number of route moved into an SDC has been 95
- Complexity of activations: number of routes, zones (schemes) and insourced clerks from spoke sites and facility work completion
- Based on the four moves with 90 or more routes, suggestion is to limit the max route moves at one time to 120
  - Spokes in the same bid cluster can move in between APWU move dates
  - Spokes outside of bid cluster can only move on APWU move dates
    - Exception when there are no clerk impacts

# Remaining Spoke Route Opportunity

## Additional Parking Opportunity

- Based on the current planned parking lot design
- Route opportunity = additional spaces available / 2.25 (POV, postal, growth, ancillary employees)
- Validate that eFMS workroom space can accommodate the additional routes
- 63 Standalone SDCs do not yet have finalized parking lot layouts
- Future looking to determine sq ft of green space and calculate estimated parking
