

LABOR RELATIONS

November 14, 2018

Mr. Brian J. Wagner  
 President  
 National Association of Postal Supervisors  
 1727 King Street, Suite 400  
 Alexandria, VA 22314-2753

FAXED

Dear Brian:

As a matter of general interest, the Postal Service plans to test package dimension measuring equipment integrated with the Passive Adaptive Scanning System (PASS).

Testing will include using three different devices to collect the dimensions and weight of packages when they are scanned using PASS during the distribution process. We will evaluate the accuracy of information provided by the test equipment and the time required to perform sampling.

The test is expected to begin November 16, and last approximately five days.

The Virginia test sites are as follows:

<u>Facility Name</u>	<u>Address</u>	<u>City</u>	<u>ZIP Code</u>
Bailey's Crossroads	6021 Leesburg Pike	Falls Church	22041
Falls Church 43 Annex	2920 Eskridge Rd	Fairfax	22031
Herndon	590 Grove St	Herndon	20170

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

Alan S. Moore  
 Manager  
 Labor Relations Policies and Programs
