Dear Brian:

This is in further reference to our August 7, 2017, notice concerning prototype testing the Next Generation Delivery Vehicles during the acquisition process.

Please be advised that two cameras will be installed in the interior of each prototype vehicle tested, one camera in the cab and the other in the cargo area. The cameras will assist in evaluating the vehicles with respect to safety and ergonomics.

Installation will be completed at the Transportation Research Center (TRC) before vehicles are returned for further testing.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan S. Moore".
