

March 8, 2018

Mr. Brian J. Wagner
President
National Association of Postal Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Brian:

This is in further reference to our October 3, 2016, notice concerning our partnership with United Parcel Service (UPS) to test the use of parcel drop boxes at Postal Service facilities.

As discussed in our previous correspondence concerning this matter, the subject parcel drop boxes are lockable steel containers owned and installed by UPS that will be mounted near our facilities. These containers provide secure locations outside of our normal business hours in smaller offices (e.g. Remotely Managed Post Offices) for UPS to drop its "SurePost" product for last-mile delivery.

We have decided to provide approximately 750 additional locations nationwide for UPS to install these parcel drop boxes. It is anticipated that supervisors at these locations will be contacted by UPS concerning installation beginning in early April, with actual installation beginning later that month.

We have enclosed a list of locations at which these parcel boxes will be installed.

If you have any questions concerning this matter, please contact Bruce Nicholson at extension 7773.

Sincerely,

A handwritten signature in black ink, appearing to read "Alan S. Moore".

Alan S. Moore
Manager
Labor Relations Policies and Programs
