

LABOR RELATIONS

September 15, 2020

Mr. Brian J. Wagner  
President  
National Association of Postal  
Supervisors  
1727 King Street, Suite 400  
Alexandria, VA 22314-2753

Dear Mr. Wagner:

This is in further reference to our June 24 notice concerning the Postal Service partnering with Aurora Insight Inc., to test radio frequency sensor technology on postal delivery vehicles in an effort to measure the radio spectrum frequencies available in an area.

The Postal Service has recently learned that Aurora Insight is currently developing and testing a new device to measure radio spectrum to be used during their test. However, this device is not scheduled to be available until November. Based on this timeframe we are placing this project on hold until after Peak Season.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E. Mills".

David E. Mills
