

**2019 NAPS LTS
HILL MEETING TALKING POINTS**

THANK YOU ... for meeting with us. We're here to talk with you about the Postal Service and service to your constituents. Here are some materials that are associated with our message today. ***[Provide NAPS Issue Brief. If available, also provide Tablet with slides ready to view and swipe.]***

SLIDE 1 - CAPITOL

We are members of the National Association of Postal Supervisors. We are not a union; we are a postal management association. Our members supervise and manage the mail processing, delivery, retail and support functions of the Postal Service. We help to assure that your constituents receive the best service possible. More than 500 Postal Supervisors are meeting with Congressional offices on the Hill this week.

NOTE: Talk about the postal facility or facilities where you work and their role.

SLIDE 2 – CONSTITUTION AND THE POSTAL SERVICE

As you may know, the Postal Service and the nation's system of post offices are established by the Constitution. Our Founding Fathers regarded a postal system as a vital means for linking communities and commerce throughout the nation. Their vision stands true today.

SLIDE 3 – OTHER THINGS TO KNOW ABOUT THE POSTAL SERVICE

In addition, the Postal Service is NOT taxpayer-funded. By law, the Postal Service is self-funded and has operated that way since 1970. Our revenues come from sales of postage and mail products, not taxes. Americans pay for postal service at a cost far less than anywhere else in the industrialized world.

Also, the Postal Service is one of our most trusted and important government agencies. We provide universal service six, sometimes seven, days a week to every delivery point in America, no matter how small or remote. We deliver most of Amazon's products and often serve as the "last-mile" carrier for UPS and FedEx.

SLIDE 4 – ECONOMIC IMPACT OF THE POSTAL SERVICE

The Postal Service supports millions of jobs in virtually every other sector of our economy. Postal jobs contribute to the economic vitality of your Congressional district and our state.

NOTE: Provide the USPS Economic Impact Statement and fill in the slots below.

_____ jobs and _____ tax dollars are generated by the Postal Service in our Congressional district.

_____ jobs and _____ tax dollars are generated throughout our state.

SLIDE 5 – EROSION IN MAIL SERVICE QUALITY

Mail is sometimes delayed due to systemic problems involving insufficient USPS infrastructure and staffing. Postal finances have deteriorated as the result of an unfairly aggressive retiree health benefits prefunding requirement. In addition, declining First Class mail volume and falling revenues over the past several years have further harmed postal sustainability. The combinations of these factors have caused the Postal Service to consolidate its processing network, lower service standards, reduce its workforce and take other actions to achieve cost savings. We, as supervisors and managers, are working harder than ever, yet are equally frustrated with the situation. Things need to change.

SLIDE 6 – URGENT NEED FOR POSTAL REFORM

Without relief from the unfair prefunding requirement and sufficient revenue, the Postal Service cannot timely deliver the mail or provide high-quality mail service. A fair calculation of the Postal Service's retiree health liability and greater revenue will be available only through changes to the Postal Service business model and postage rates. This requires legislative action and oversight by Congress and rate increases by the Postal Regulatory Commission.

The Postal Regulatory Commission has completed its review of the last 10 years of USPS performance and criticized current law and the rate framework for failing to assure the financial health of the Postal Service. As a result, the PRC will shortly issue a ruling to install a more responsive rate structure. But that alone is not enough. Congress needs to pass postal reform legislation that puts the Postal Service on a more sustainable financial path. The Senate also needs to promptly confirm pending nominees to the USPS Board of Governors.

SLIDE 7 – POSTAL BILLS TO COSPONSOR

House: Please consider (or thank you for) cosponsoring the bills referenced on page 7 of our Issue Brief.

Senate: Please cosponsor any similar Senate bills that may arise.

SLIDE 8 – DEFICIT REDUCTION AND FEDERAL/POSTAL EMPLOYEES

Last year, President Trump proposed massive cuts in the retirement and health benefits of federal and postal employees. We ask Congress to refrain from adopting these cuts in the FY 2020 budget, just as Congress refrained from including them in the 2019 budget. Since 2011, federal employees and retirees have contributed more than \$120 billion toward deficit reduction through cuts in benefits.

SLIDE 9 – OUR INVITATION

Finally, we are inviting lawmakers and staff to visit (or revisit) our local postal facilities to see and learn how the postal system works and the challenges we face in our district/state. Thank you for your support and for listening to us. Let us know whenever we can be helpful.

NOTE: Take photos, exchange business cards, before leaving.
