Dear Brian:

This is in further reference to the Postal Service's March 10 correspondence (copy enclosed) concerning the decommissioning of Mobile Point of Sale (mPOS) devices at various retail locations throughout the country.

The Postal Service has decided to decommission the mPOS in the 503 locations where the devices currently remain assigned. The reason for decommissioning the remaining devices is that they are currently inoperable due to ongoing battery and login issues. This phase of decommissioning is expected to begin in June and conclude in August.

Enclosed on compact disc is a list of the 503 sites from where the remaining mPOS devices will be decommissioned.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,

Dear Brian:

As a matter of general interest, the Postal Service is in the process of decommissioning Mobile Point of Sale (mPOS) devices at various retail locations throughout the country.

Out of the approximately 3,000 mPOS devices currently deployed nationwide, 503 will remain in commission at the conclusion of this decommissioning effort.

Enclosed on compact disc is a list of the 503 sites where the mPOS will remain in commission.

Additionally, in those 503 sites, the Postal Service will solicit feedback from employees regarding their use of the mPOS through a survey administered through the Retail Software System (RSS).

Enclosed is a copy of the survey questions.

Participation in the survey is voluntary and employees will be provided time on the clock to complete the survey, if they choose to participate.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,
