Dear Brian:

This is in further reference to the Postal Service notice dated January 10 (enclosed) on the expansion of the Secure Destruction (SD) mail service program to the first-class flat operation.

As previously informed, the subject expansion will provide electronic information to mailers and the actual undeliverable flat mail piece will be intercepted and shredded at the 20 identified Flat Postal Automated Redirection System (FPARS) mail processing facilities by Postal Service employees.

The testing of the electronic notification system is complete and will be offered to postal business customers beginning November 30.

Enclosed is a listing of the SD FPARS mail processing facility locations. Please contact Dion Mealy at extension 6861 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rickey R. Dean".
