Faxed

Dear Mr. Butts:

This is in reference to our June 29 general interest notification advising that the Postal Service initiated a pilot test using non-career employees to load Sunday Amazon parcels into LLV/FFV vehicles prior to the assigned carrier reporting to work.

You were advised that during the test City Carrier Associate (CCA) and Rural Carrier Associate (RCA) employees would be scheduled to report for work and assigned to load parcels into vehicles for four routes each. The test was initiated in April and was being conducted at 81 postal facilities within the WestPac Area.

On July 23, you were sent additional notification advising that the Postal Service intended to expand the test to facilities in the Atlantic, Central and Southern Areas beginning Sunday, July 25. 220 offices were subsequently added to the Sunday Pre-Load pilot test. Other offices across the country expressed an interest in the Sunday Pre-Load pilot test. Consequently, beginning on September 19, we are expanding the pilot test to incorporate an additional 276 test sites.

We have enclosed a list of the 276 additional test site locations.

Please contact Bruce Nicholson at extension 7773 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E. Mills".
