LABOR RELATIONS

March 15, 2021

Mr. Brian J. Wagner
President
National Association of Postal
Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Mr. Wagner:

In further reference to the June 11, 2020 notice related to the Postal Service proof of concept (POC) test of new electronic Arrow key lockers.

The POC test will require carriers and clerks to use electronically controlled key locker units. During this POC test, several different methods will be utilized to access the locker units (e.g., PIN, Employee Badge) and retrieve the Arrow keys.

The Postal Service will expand the test with two additional vendors: ecos systems and KEYper Systems.

This expansion will be at the following sites:

Area	District	Location
Capital Metro	Capital	JCTM- Washington DC Carrier Section 2 (20002)
Western/Pacific	Nevada Sierra	Las Vegas - Spring Valley Station -89117

With this POC test the Postal Service seeks to find alternate ways to increase arrow key security, create higher levels of employee accountability related to Arrow keys, and reduce the costs and fees associated with investigating and replacing lost Arrow keys.

This POC test is expected to begin the first week of April and run for approximately six months.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E. Mills".
