Mr. Brian J. Wagner
President
National Association of Postal
Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Mr. Wagner:

This is in further reference to our January 28 notice concerning the Postal Service plans to test a new enhancement on the Mobile Delivery Device (MDD) and the Mobile Delivery Device – Technology Refresh (MDD-TR). This test incorporates the ability to complete the PS Form 3575Z, *Employee Generated Change of Address* using the MDD/MDD-TR device.

During the test, which began on February 6, carriers have used the MDD/MDD-TR device to enter information for mail being held for an address where a customer moved but did not leave a forwarding order and a change of address was not received after 10 days.

The Postal Service has seen a successful usage of this application, which eliminates the hard copy version PS Form 3575Z. This has increased the accuracy of the AMS database used to handle this undeliverable mail.

With the success seen during this test the Postal Service has made the decision to discontinue the test and implement this process nationally beginning on May 1.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E Mills". The signature is somewhat stylized and scribbled.

David E Mills
