Dear Ivan:

As a matter of general interest, Headquarters Post Office Strategy and Optimization plans to conduct an evaluation to analyze and modify, if needed, the funding methodology for mail separation and cross-dock transfers in sectional center facilities (SCF) and Hub operations.

Observations will be conducted to evaluate and align the current time factors in the Variance Program regarding the amount of time spent sorting mail into separate containers, known as "hashing", and preparing containers for cross-dock transfers at SCF and Hub operations. The subject observations will take place at 30 locations as identified on the enclosed list. Each site observation will occur over a two-day period and information gathered will be reported in the aggregate. The analysis is scheduled to begin mid-June and will conclude at the end of August.

Please contact Dion Mealy at 202-507-0193 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Shannon Richardson".
