Dear Ivan:

This letter is in further reference to the notice dated October 25, 2023 (enclosed), regarding the Postal Service's partnership with the General Services Administration (GSA) and Federal Bureau of Investigation (FBI) to provide various biometric services. The Postal Service currently has 392 sites and plans to expand to selected sites nationwide this year.

As previously informed, the Postal Service deployed new technology, called the Electronic Biometric Identity Services (EBIS), which consolidated biometric capture, in-person proofing, and personal identity verification (PIV) transactions into one platform. The various services are being incorporated into EBIS in phases. The recent update replaced the laptops currently in use with new Enterprise Biometric Identity Services (EBIS) equipment in the existing FBI Identity History Summary Check (IdHSC) fingerprinting sites.

Enclosed on compact disc (CD) is a list of the 405 FBI IdHSC sites to receive the new EBIS devices and a copy of the Retail Service Talk, *Enterprise Biometric Identity Services (EBIS)*. Deployment, installation and training of the new devices will take place throughout the month of January and the equipment is tentatively expected to be ready for use in February.

Please contact Dion Mealy at 202-507-0193 if you have any questions concerning this matter.

Sincerely,

In the future, identity business service transactions including Biometric Capture, In-Person Proofing (IPP), and Personal Identity Verification (PIV), will be consolidated under one EBIS platform, with additional services implemented in a phased approach. EBIS will be configurable for different government agencies' requirements, removing the need for multiple platforms and equipment to process these types of transactions.

For detailed information, training material is available in the CRDO Resource Library in the EBIS Toolkit.
