

LABOR RELATIONS

May 28, 2024

RECEIVED
MAY 31 2024

Mr. Ivan Butts
President
National Association of Postal Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Dear Ivan:

This is in reference to the October 25, 2021, notice of a pilot test being initiated by the Postal Service entitled *Logical Group Routing* (LGR).

The notice advised that LGR is a tool designed to assist supervisors in projecting the number of routes required and appropriate staffing for Sunday package delivery. The LGR process consists of management logging into the Parcel Delivery Territory Assignment Tool (PDTAT) each weekday prior to the Sunday parcel delivery date and reviewing the predictive data results that are based on the previous six weeks of historical package volume.

The LGR process also involves clerks scanning parcels using the LGR configuration setting on the PASS/DSS and ADUS/SDUS machines to set up their "bullpen" operation. In October 2021, the test began at eleven site locations; however, three additional site locations were added in January 2022.

In April 2022, the number of site locations were expanded to assess the feasibility of implementing the process nationwide. The expansion consisted of adding 232 additional facilities. The LGR process is now expanding to 1,058 offices effective May 28.

Enclosed is a copy of the 1,058 new site locations.

Please contact Bruce Nicholson at extension 7773 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "James Lloyd".

James Lloyd
Director
Contract Administration (NALC)

Enclosure
