LABOR RELATIONS

March 22, 2022

Mr. Ivan Butts
President
National Association of Postal
Supervisors
1727 King Street, Suite 400
Alexandria, VA 22314-2753

Sent via FAX

Dear Mr. Butts:

This is in further reference to our February 2, notice related to the Postal Service replacing the Hyper Electronic Badge Reader (HEBR) devices used for Time and Attendance Collections System (TACS) in delivery units with city carriers with timekeeping applications on their Mobile Delivery Device - Technical Refresh (MDD-TR) and the MDD In Office Scanner (MIO) devices.

The Postal Service has updated the pilot locations and scheduled national implementation dates (See enclosed).

The revised pilot is scheduled to resume on March 26 and continue for two pay periods at which time the office will be reverted back to the HEBR timekeeping until such time as their District/Area is scheduled for actual implementation based on the national implementation schedule.

Also enclosed is an updated training deck.

Please contact Bruce Nicholson at extension 7773, if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "David E. Mills".

David E. Mills
Director
Labor Relations Policies and Programs

MDD-IO & MDD-TR Scanners Functions 2 & 4 Timekeeping

March 22, 2022

F2 & F4 Timekeeping

Background

- The vendor that supplied Hyper Electronic Badge Readers (HEBR) went out of business in August of 2018.
- The HEBRs are over 25 years old, and some replacement parts are in short supply, especially the motherboards.
- Current projections have the supply of HEBRs being exhausted in **FY2023**.
- Developing a new process for time keeping purposes has become necessary.
- The Postal Service will utilize existing technology (MDD-IO and MDD-TR scanners) to transmit clock rings to Time and Attendance Control System (TACS)

MDD-IO

Employees performing Function 4 duties must utilize MDD-IO (MIO) scanners for time keeping.

Employees performing Function 2 duties must utilize MDD-TR scanners for time keeping.

Work hours for each employee will be transmitted from the MDD-IO and MDD-TR devices to Regional Intelligent Mail Servers (RIMS), and then reported to the Time and Attendance Control System (TACS).

MDD-TR

MDD-TR Scanner Function 2 Timekeeping

Sensitive Commercial Information – Do Not Disclose / Attorney-Client Privileged / Attorney Work Product

UNITED STATES
POSTAL SERVICE®

F2 Timekeeping: RIMS – Mobile Delivery Device (MDD-TR)

Changes on MDD-TR

- MDD-TR Application is modified to accept City Carriers clock rings, Carriers time can be posted in the TACS application from **RIMS**
- AMS Route Drop-down box added to reduce manual entries
- Carriers must scan their badge prior to recording the rings

Five clock rings are available:

1. Begin Tour
2. Out for Lunch
3. Return from Lunch
4. Move
5. End Tour

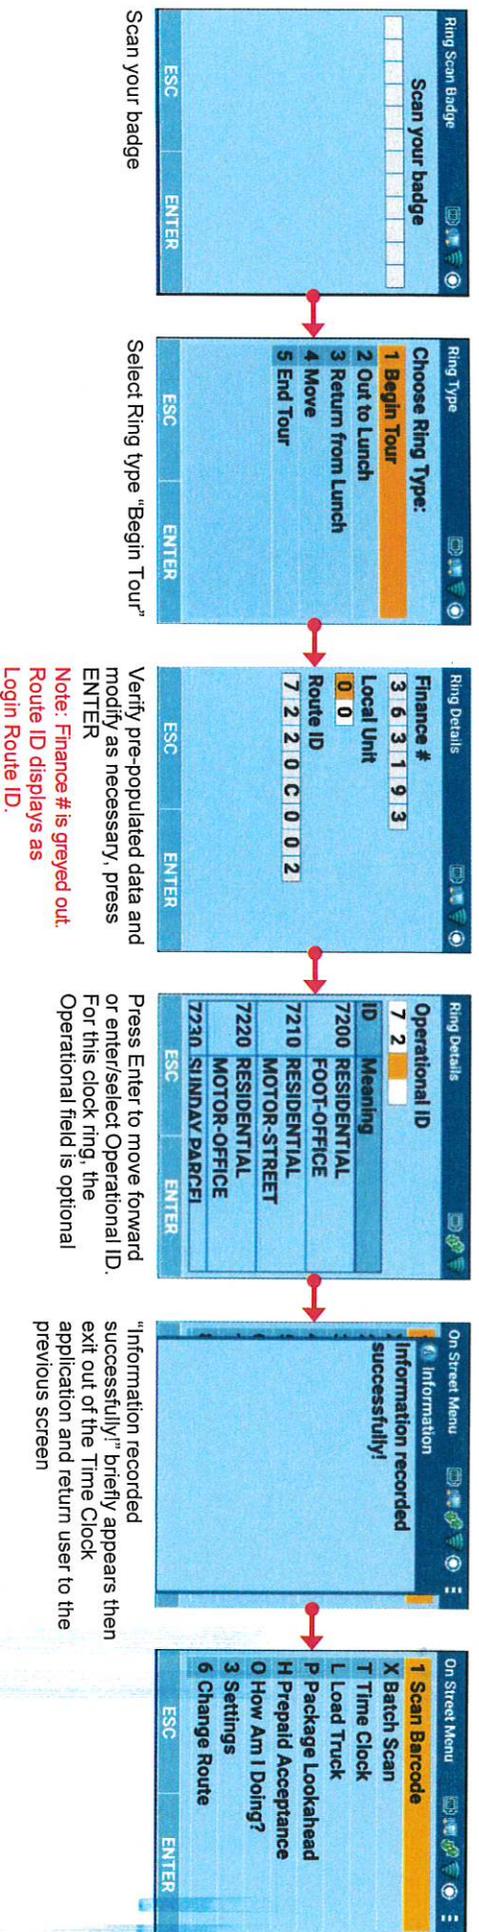

- Once DEPART2ROUTE scan is performed or the **facility shape of the office is broken**, the scanner will automatically suppress “Out for Lunch” and “Return from Lunch” rings, until a RETURN2DU is scanned.
- “Move” ring requests carrier to enter the operation ID, and the scanner will provide a list of available IDs to select from. For other ring types operation ID is not mandatory.

F2 Timekeeping: RIMS – Mobile Delivery Device (MDD-TR)

Pre-Implementation Checklist

- All carriers must have a current barcoded ID badge.
- All offices must ensure they have MDD-TRs for each of their AMS routes and any Full-Time Non-AMS routes. The number of the spare MDD-TRs on hand must be equal to the combined total of AMS and Full-Time Non-AMS routes times 10%.
- MDD-TRs that are Lost, Damaged or Not Working must be reported to the Helpdesk.
- Offices must verify via **RIMS-Tracking-Device Asset Summary** that the latest Software Version (7.50) is used.
- All MDD-TRs must be accessible in the morning, so carriers can record their Begin Tours. The location surrounding the MDD-TRs will become a new area where carriers will gather to pick-up their scanners. Each site needs to GEMBA to ensure no safety hazard exist.
- Supervisors must review clock ring daily and notify carriers if clock-ring errors are observed.

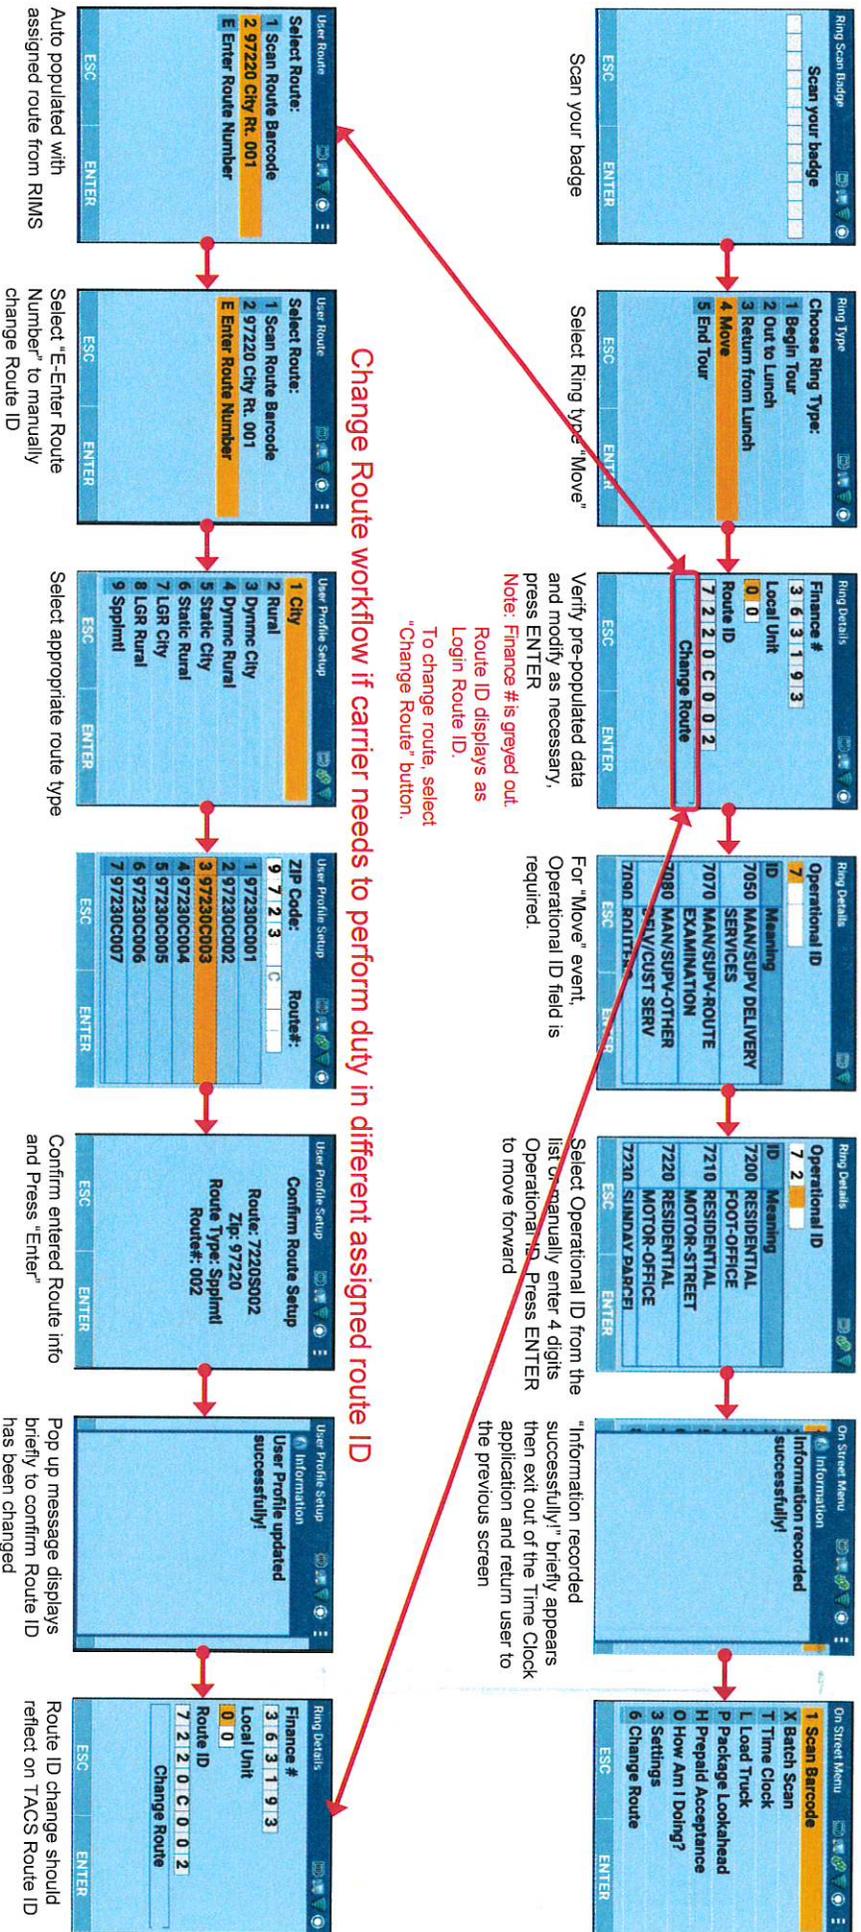

Timekeeping for City Carriers: "Begin Tour" Clock Ring

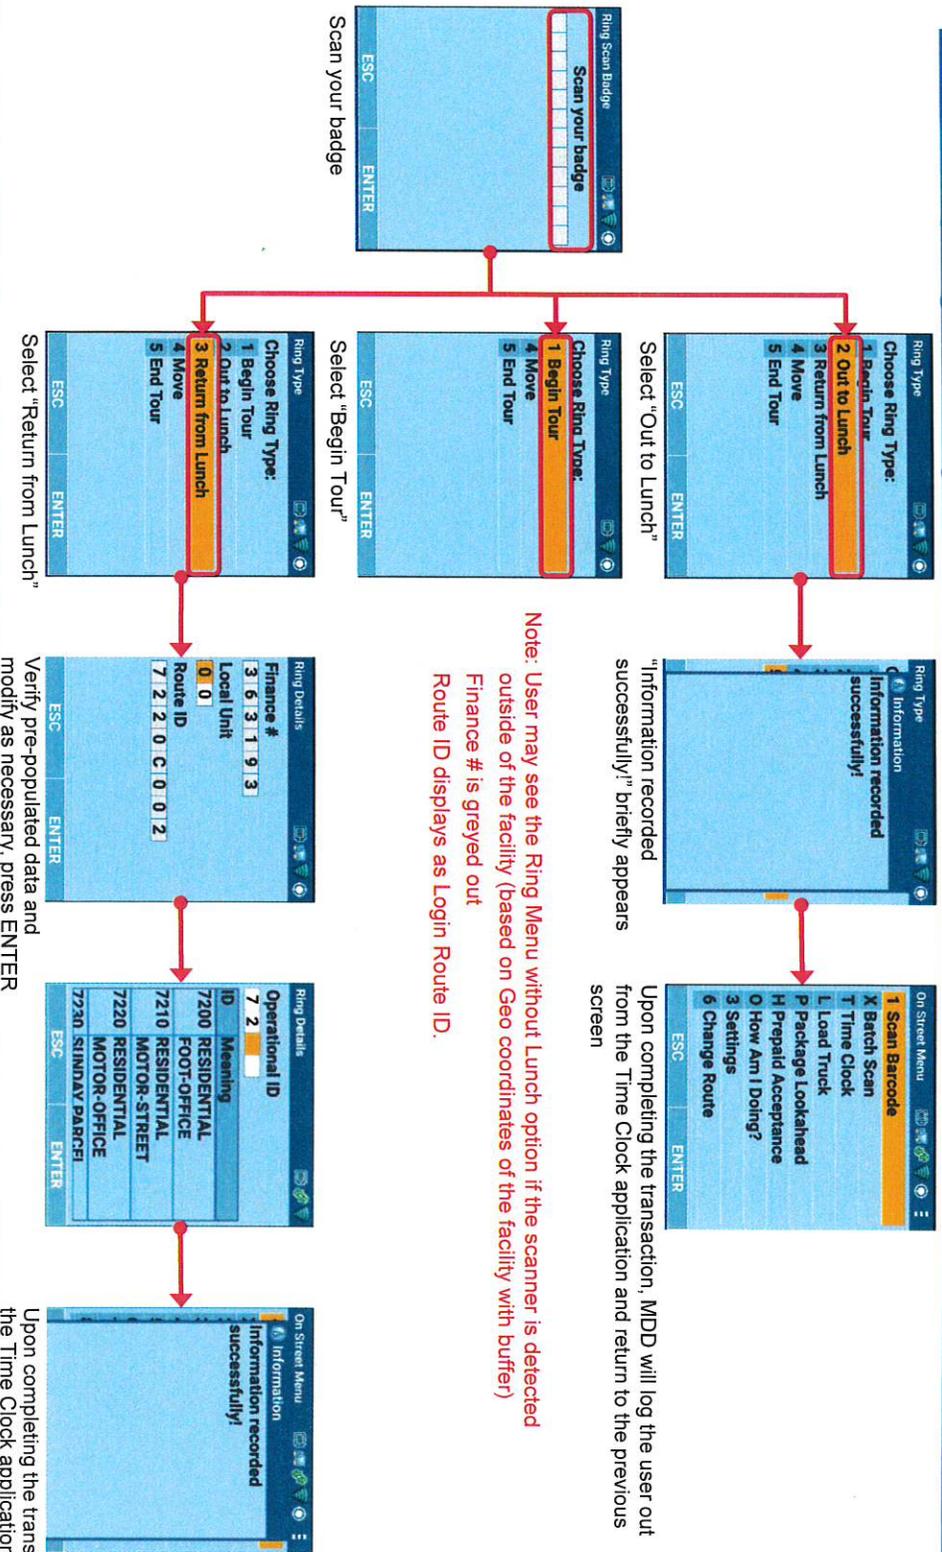

Timekeeping for City Carriers: "End Tour" Clock Ring

Timekeeping for City Carriers: "Move" Clock Ring

Timekeeping for City Carriers: "Out to Lunch" & "Return from Lunch" Clock Rings

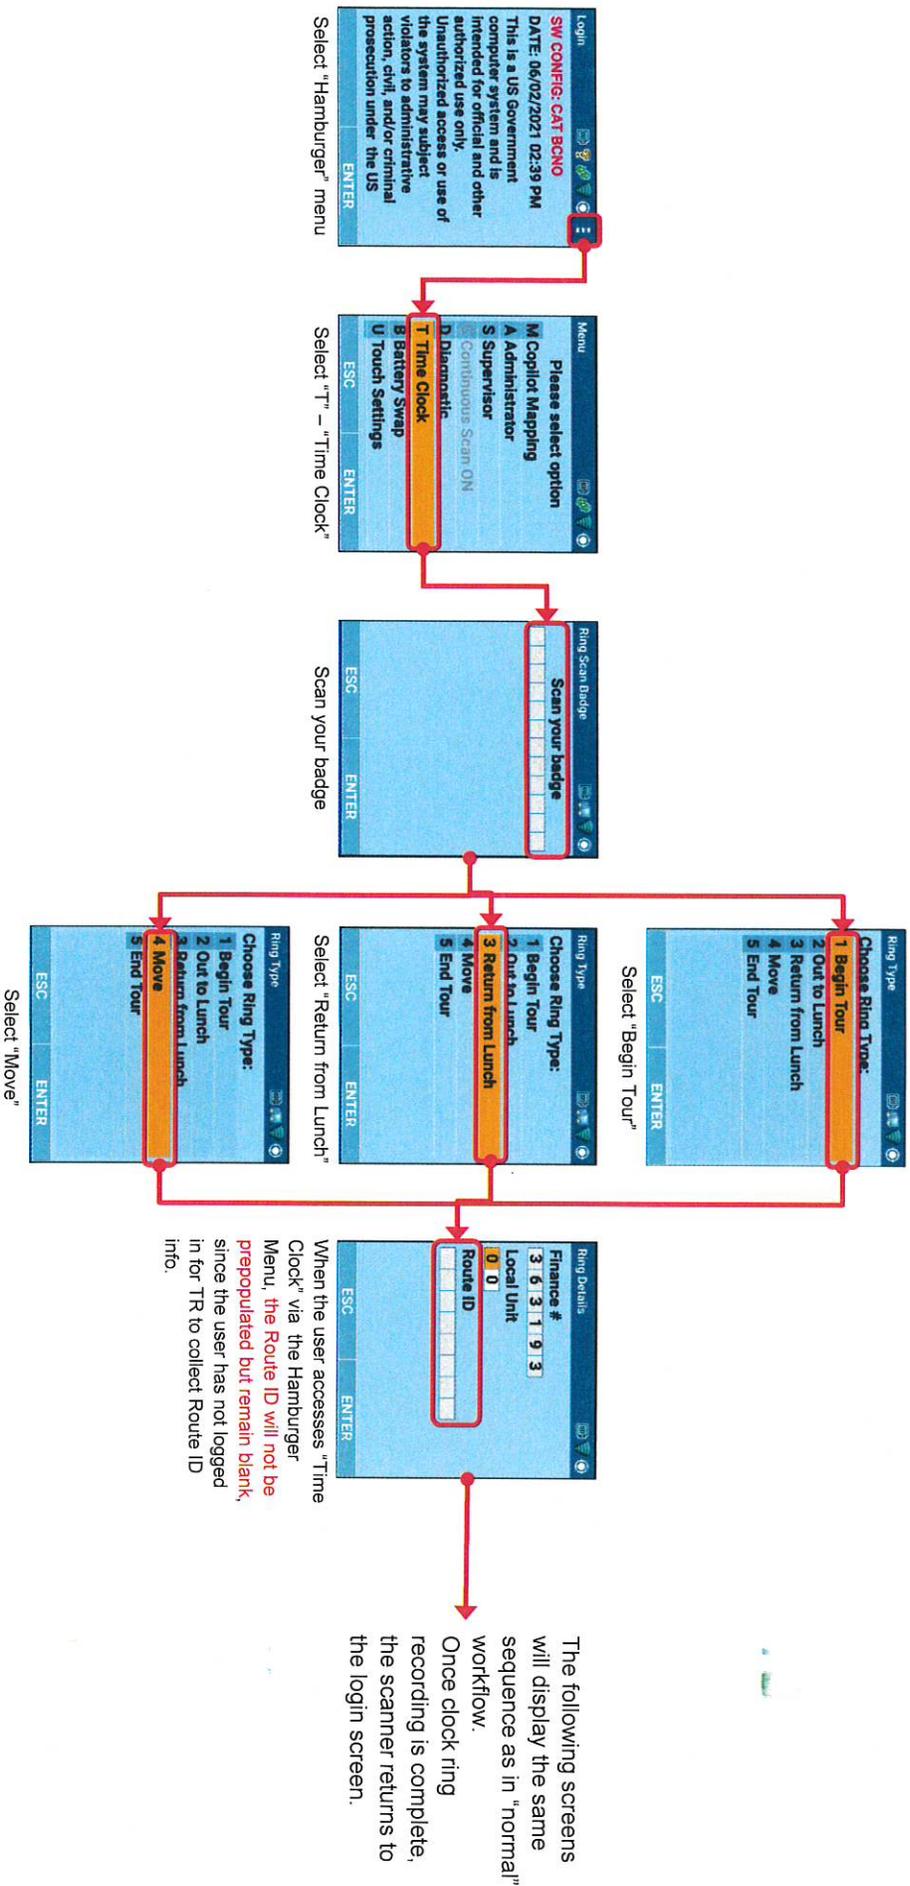

Note: User may see the Ring Menu without Lunch option if the scanner is detected outside of the facility (based on Geo coordinates of the facility with buffer)
Finance # is greyed out
Route ID displays as Login Route ID.

Verify pre-populated data and modify as necessary, press ENTER

Upon completing the transaction, MDD will log the user out from the Time Clock application and return to the previous screen

- Timekeeping for City Carriers: Using Time Clock via Hamburger Menu

MDD- In Office (MDD-IO)
Function 4
Timekeeping

F4 Timekeeping: RIMS – Mobile Delivery Device In-Office Scanner (MIO)

Processual Changes

- The new time keeping process will utilize operational move placards placed in work locations throughout the office which employees will scan.
- MIO scanner will record Retail & Customer Service employees' clock rings, and work hours will be posted in the TACS application from **RIMS**.
- Employees can access Time Keeping workflow by pressing hot key combination "Red" + "F" and scan their badge prior to recording the rings.

Pre-Implementation Checklist

- All employees must have a current barcoded ID badge
- EAS staff must have required access to RIMS and TACS for the Proof-of-Concept facility
- Print and post all applicable placards; ensure they are easily accessible in each operational area
- All MIO scanners must be available and configured to the correct finance number
- All clerks must log into MIO scanners
- Print and post SWIs and SOPs for reference
- Ensure all employees have been properly trained
- Ensure PS 1260s are available (for back-up purposes)

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

Placard Procedures

To create placards log into Regional Intelligent Mail Servers (RIMS)

<https://rims-imdas.usps.com/login.php>

RIMS/TACS Operations

In RIMS navigate to the TACS operations screen. This allows management to create, edit, delete, and print TACS placards that can be scanned by employees when performing work that falls under a specific operation code.

When first displayed, the TACS operations list is sorted in ascending order based on operation description, but it can be sorted by any field where the column title is underlined. The list can be searched by finance number, operation description, and operation code, and can be exported to an Excel or CSV formatted file for reference.

The list currently supports only In-office operations but may be enhanced at a later date to include On-street operations as well.

The data in the list is stored in RIMS for an indefinite time period and can be modified or deleted at any time.

List of TACS operations:

- Edit (*hyperlink used to modify an entry*)
- Type (*In-office is currently the only option*)
- Finance Number
- Operation Description
- Operation Code
- LDC Code (Labor Description Code)
- Created Datetime (CST)

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

TACS operations screen sample: step-by-step instructions

1 Config Tab – TACS Operations

Finance Number	Operation Description	Operation Code	OPERATION DESCRIPTION
020313	ADMIN & CLER AREA STAT		
020314	ALLIED DISTRIBUTION		
020314	AMAZON FRESH DIST		
020313	BULK MAIL ACCEPTANCE		
020313	BUSINESS REPLY MAIL (BRM)		
020314	CADES SRVS CARRIAGE/DLY		
020314	COA SCANNING		
020314	COLLECTIONS-CRMS		
020314	CUST SERV ACTIVITIES		
020314	CUST SERV ACTIVITIES		
020314	CUSTOMER PER MOU		
020314	DBCS/DIORS DFS-1ST PASS		
020314	DBCS/DIORS DFS-2ND PASS		
020314	DBCS/DIORS HC PRIMARY		

2 To Add a New Operation

For most Op. Codes Finance# defaults to the site Finance#, and user can't modify it.

For Op. Code 6210 Finance# doesn't default to the site Finance#, and user can enter one.

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

TACS operations screen sample: step-by-step instructions

3 To Print a Placard

1. Select the placard(s) to be printed by checking the box next to the desired operation
2. Click the Print Placards button
3. The placard is printed in PDF, one placard per page, showing the facility description for the current office followed by the finance number, the operation description, the LDC and a barcode that captures the information.

The screenshot shows the 'TACS Operations' interface. At the top, there are buttons for 'New Operation', 'Print selected Placards', 'Search', and 'Clear'. Below these are input fields for 'Finance Number', 'Operation Description', and 'Operation Code'. A table lists several operations with checkboxes for selection. A red box highlights the 'Print selected Placards' button with the annotation '2) Click to print the placard'. Another red box highlights the checked checkbox for the first row with the annotation '1) Check the check box for printing'. Below the table, a printed placard is shown for 'SUNDAY PARCEL DIST' with the following details:

Reason Main Facilities 123115
SUNDAY PARCEL DIST
(LDC 4300)
OPERATION
0770

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

TACS operations screen sample: step-by-step instructions

4 To Edit or Delete an Operation Entry

- Click on the Edit hyperlink next to the entry to be edited or deleted

New Operation **Print selected Placards**

Finance Number Operation Description Operation Code

Search **Clear**

Results: Viewing items 1-20 of 42

<input type="checkbox"/>	Edit	Type	Finance Number	OPERATION DESCRIPTION
<input type="checkbox"/>	Edit	IN-OFFICE	020313	ADMIN & CLER AREA STA
<input type="checkbox"/>	Edit	IN-OFFICE	020314	ALLIED DISTRIBUTION

- Select an Operation Description from the dropdown list
- To save the changes, click Save
- To delete the entry, click Delete

TACS Operations:

Save **Cancel** **Delete**

Operation Description: ADMIN & CLER AREA STAT - 6780

Finance Number: 863102

Operation Code: 6780

LDC Code: 4800

- Once all placards have been printed for the facility, they should be displayed in or nearest the workstation.
- Placards should be easily accessible for employee to reach.
- If the office requires employees to travel to various locations, placards for these finance numbers should be displayed in a segregated area as to not be confused with the primary office placards.

F4 Timekeeping: RIMS – Utilizing the MDD In-Office Scanner (MIO)

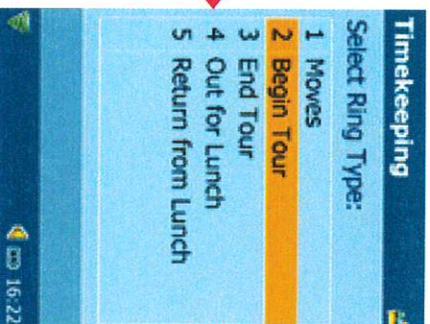

Employee begins work for the day

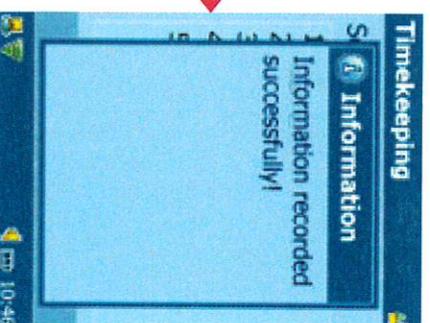

Press **RED+F**

Scan your badge

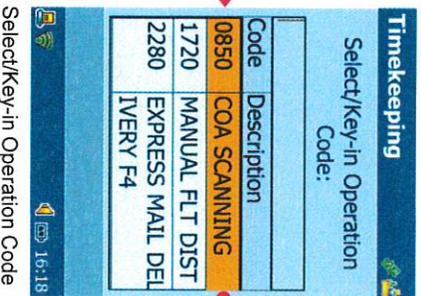

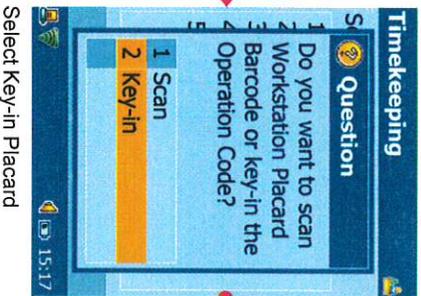

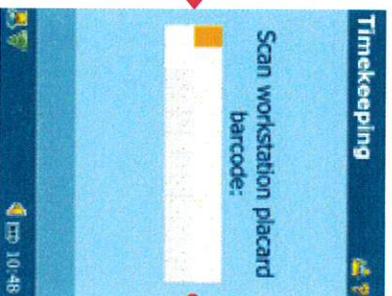

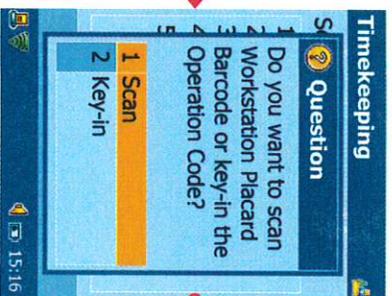

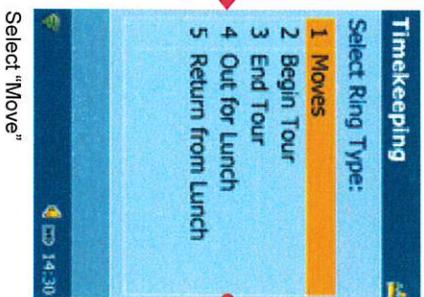

Select "Begin Tour"

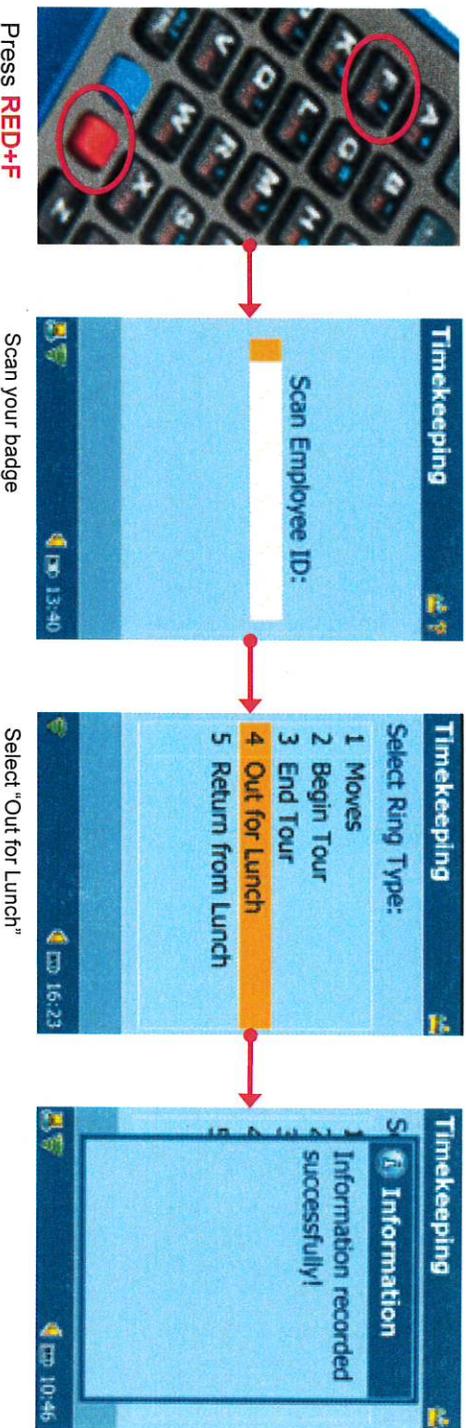

F4 Timekeeping: RIMS – Utilizing the MDD In-Office Scanner (MIO)

Employee starts assignment

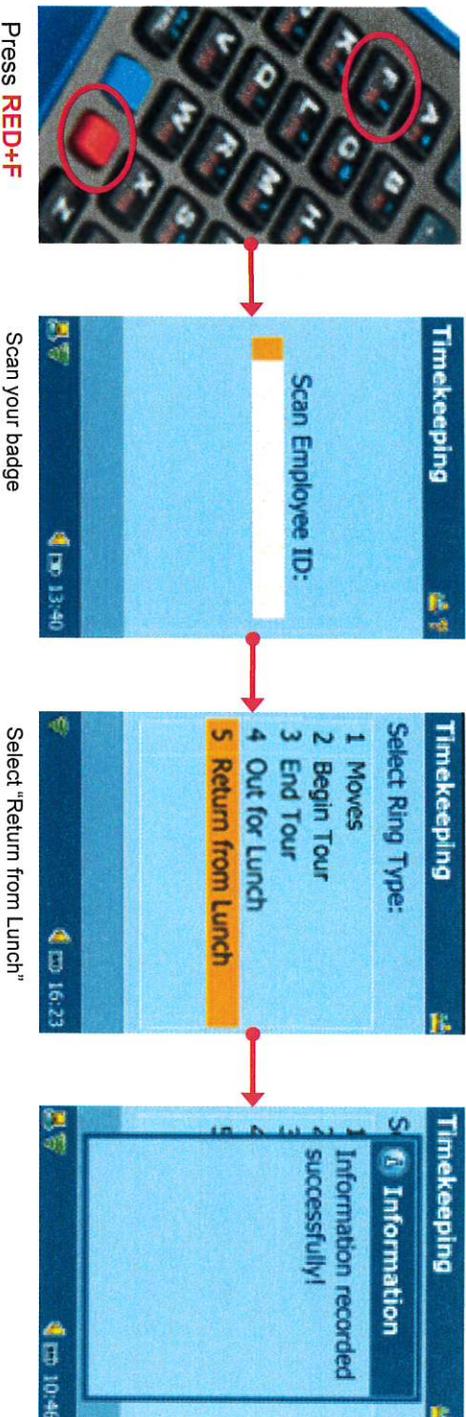

F4 Timekeeping: RIMS – Utilizing the MDD In-Office Scanner (MIO)

Employee takes lunch break

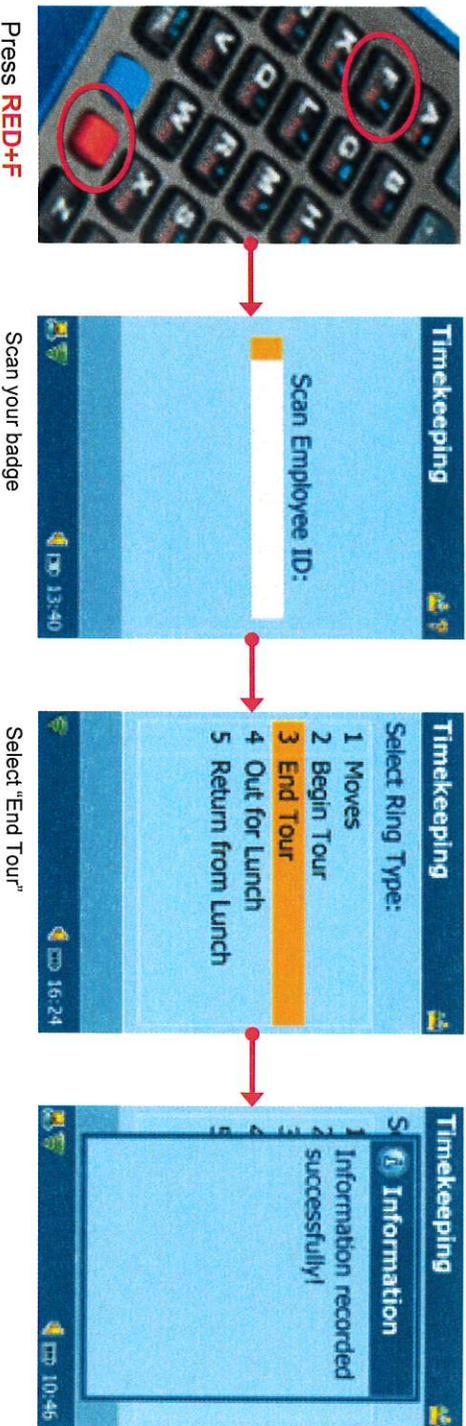

F4 Timekeeping: RIMS – Utilizing the MDD In-Office Scanner (MIO)

Employee returns from lunch break

F4 Timekeeping: RIMS – Utilizing the MDD In-Office Scanner (MIO)

Employee ends work for the day

MDD-IO & MDD-TR Scanners Functions 2 & 4 Timekeeping

March 22, 2022

F2 & F4 Timekeeping

Background

- The vendor that supplied Hyper Electronic Badge Readers (HEBR) went out of business in August of 2018.
- The HEBRs are over 25 years old, and some replacement parts are in short supply, especially the motherboards.
- Current projections have the supply of HEBRs being exhausted in **FY2023**.
- Developing a new process for time keeping purposes has become necessary.
- The Postal Service will utilize existing technology (MDD-IO and MDD-TR scanners) to transmit clock rings to Time and Attendance Control System (TACS)

MDD-IO

Employees performing Function 4 duties must utilize MDD-IO (MIO) scanners for time keeping.

Work hours for each employee will be transmitted from the MDD-IO and MDD-TR devices to Regional Intelligent Mail Servers (RIMS), and then reported to the Time and Attendance Control System (TACS).

Employees performing Function 2 duties must utilize MDD-TR scanners for time keeping.

MDD-TR

MDD-TR Scanner Function 2 Timekeeping

F2 Timekeeping: RIMS – Mobile Delivery Device (MDD-TR)

Changes on MDD-TR

- MDD-TR Application is modified to accept City Carriers clock rings, Carriers time can be posted in the TACS application from **RIMS**
- AMS Route Drop-down box added to reduce manual entries
- Carriers must scan their badge prior to recording the rings

Five clock rings are available:

1. Begin Tour
2. Out for Lunch
3. Return from Lunch
4. Move
5. End Tour

- Once DEPART2ROUTE scan is performed or the **facility shape of the office is broken**, the scanner will automatically suppress “Out for Lunch” and “Return from Lunch” rings, until a RETURN2DU is scanned.
- “Move” ring requests carrier to enter the operation ID, and the scanner will provide a list of available IDs to select from. For other ring types operation ID is not mandatory.

F2 Timekeeping: RIMS – Mobile Delivery Device (MDD-TR)

Pre-Implementation Checklist

- All carriers must have a current barcoded ID badge.
- All offices must ensure they have MDD-TRs for each of their AMS routes and any Full-Time Non-AMS routes. The number of the spare MDD-TRs on hand must be equal to the combined total of AMS and Full-Time Non-AMS routes times 10%.
- MDD-TRs that are Lost, Damaged or Not Working must be reported to the Helpdesk.
- Offices must verify via **RIMS-Tracking-Device Asset Summary** that the latest Software Version (7.50) is used.
- All MDD-TRs must be accessible in the morning, so carriers can record their Begin Tours. The location surrounding the MDD-TRs will become a new area where carriers will gather to pick-up their scanners. Each site needs to GEMBA to ensure no safety hazard exist.
- Supervisors must review clock ring daily and notify carriers if clock-ring errors are observed.

Timekeeping for City Carriers: "Begin Tour" Clock Ring

Scan your badge

Select Ring type "Begin Tour"

Verify pre-populated data and modify as necessary, press ENTER
 Note: Finance # is greyed out.
 Route ID displays as Login Route ID.

Press Enter to move forward or enter/select Operational ID. For this clock ring, the Operational field is optional

"Information recorded successfully!" briefly appears then exit out of the Time Clock application and return user to the previous screen

Timekeeping for City Carriers: "End Tour" Clock Ring

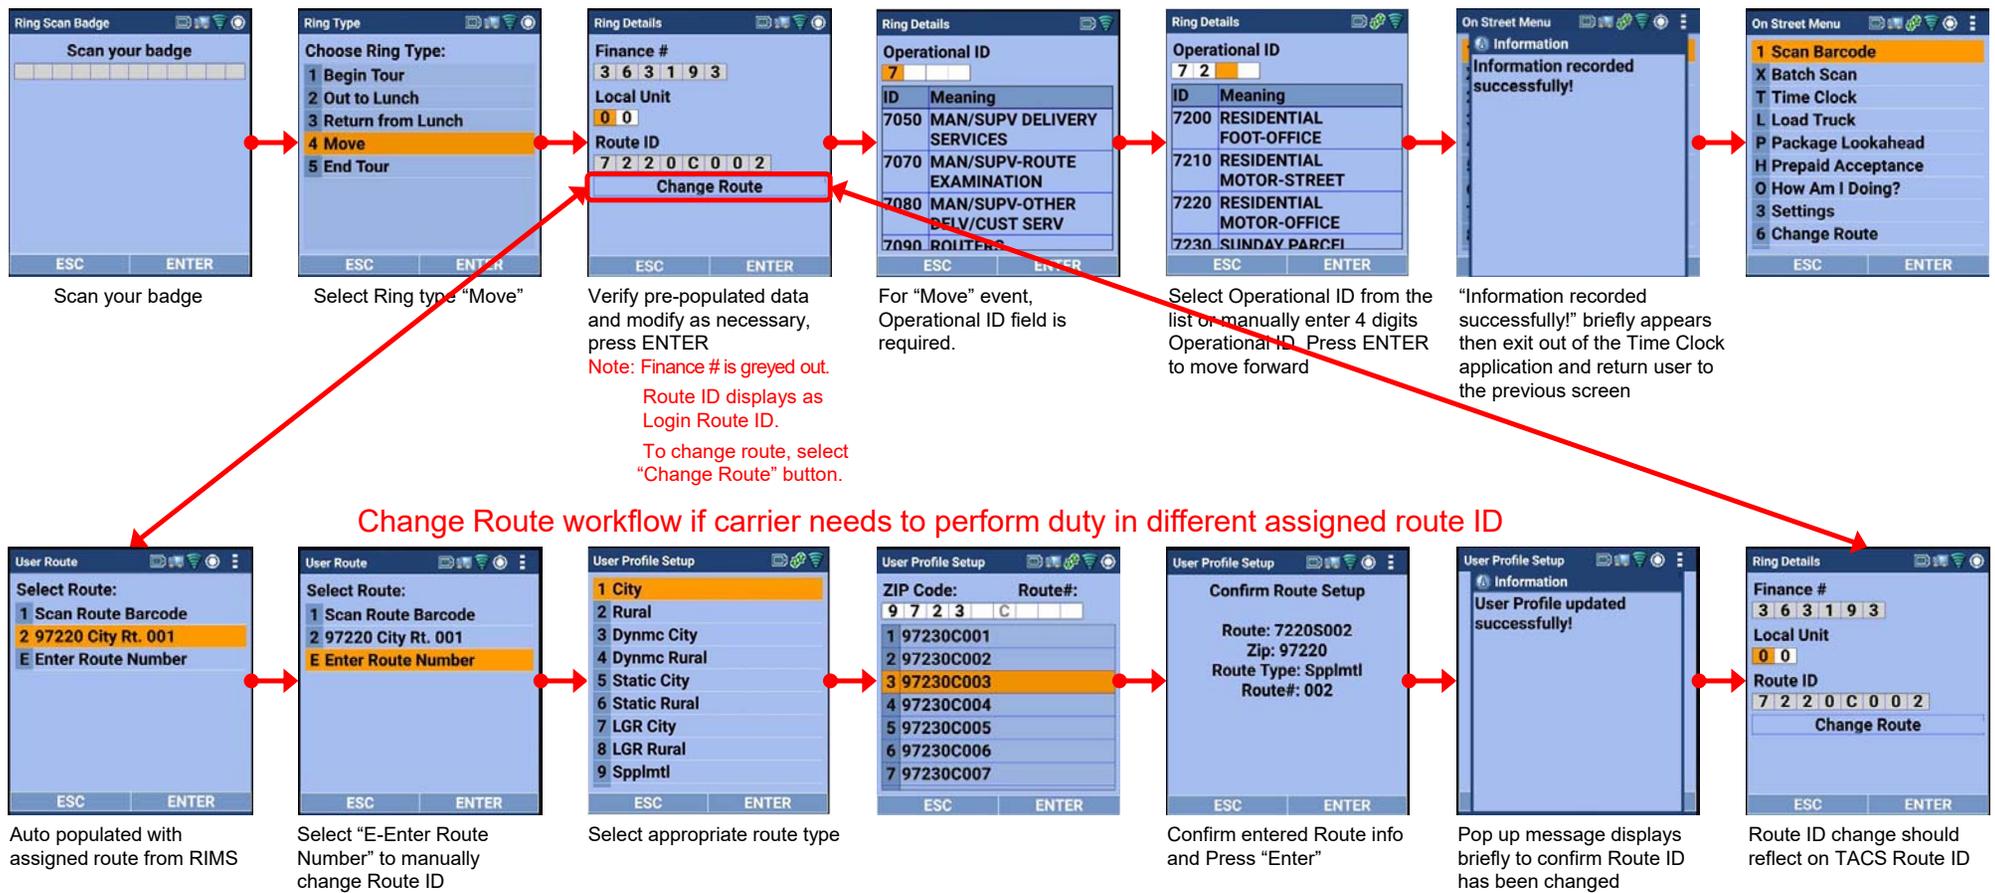

Scan your badge

Select Ring type "End Tour"

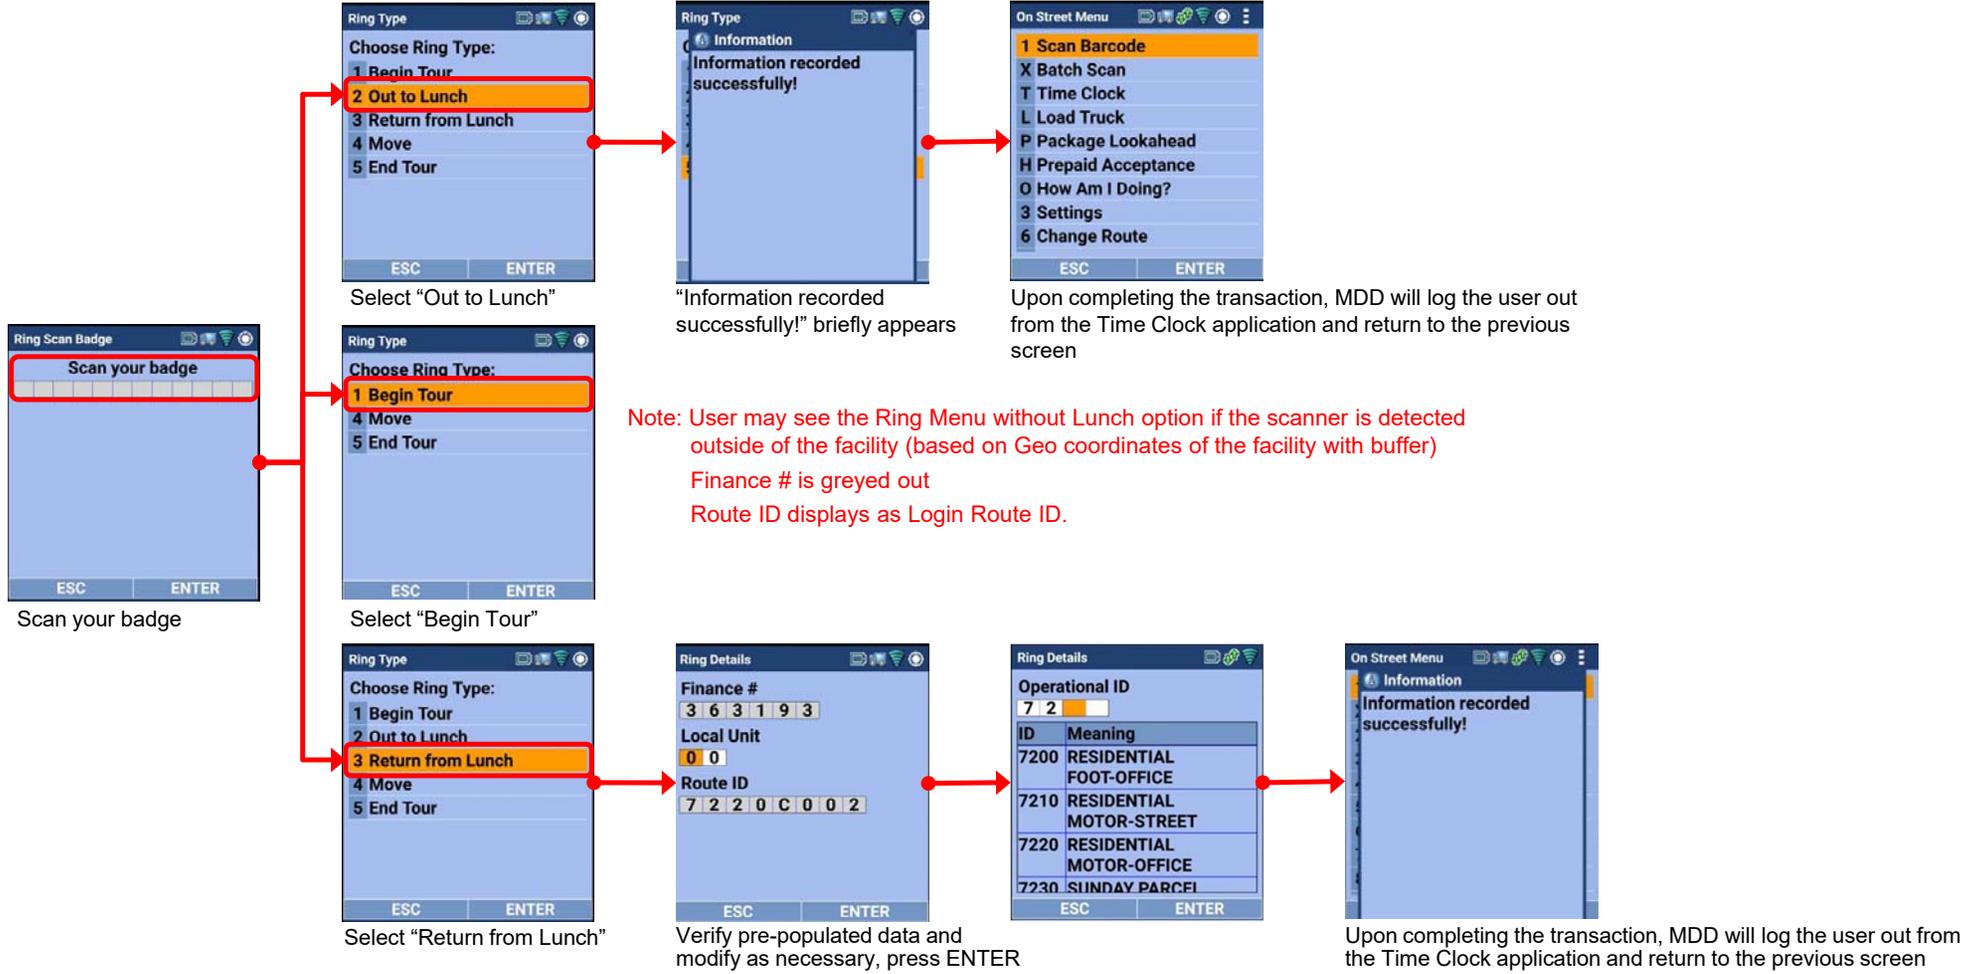

Information recorded successfully!" briefly appears

Upon completing the transaction, MDD will log the user out from the Time Clock application and return to the previous screen

Timekeeping for City Carriers: "Move" Clock Ring

• **Timekeeping for City Carriers: “Out to Lunch” & “Return from Lunch” Clock Rings**

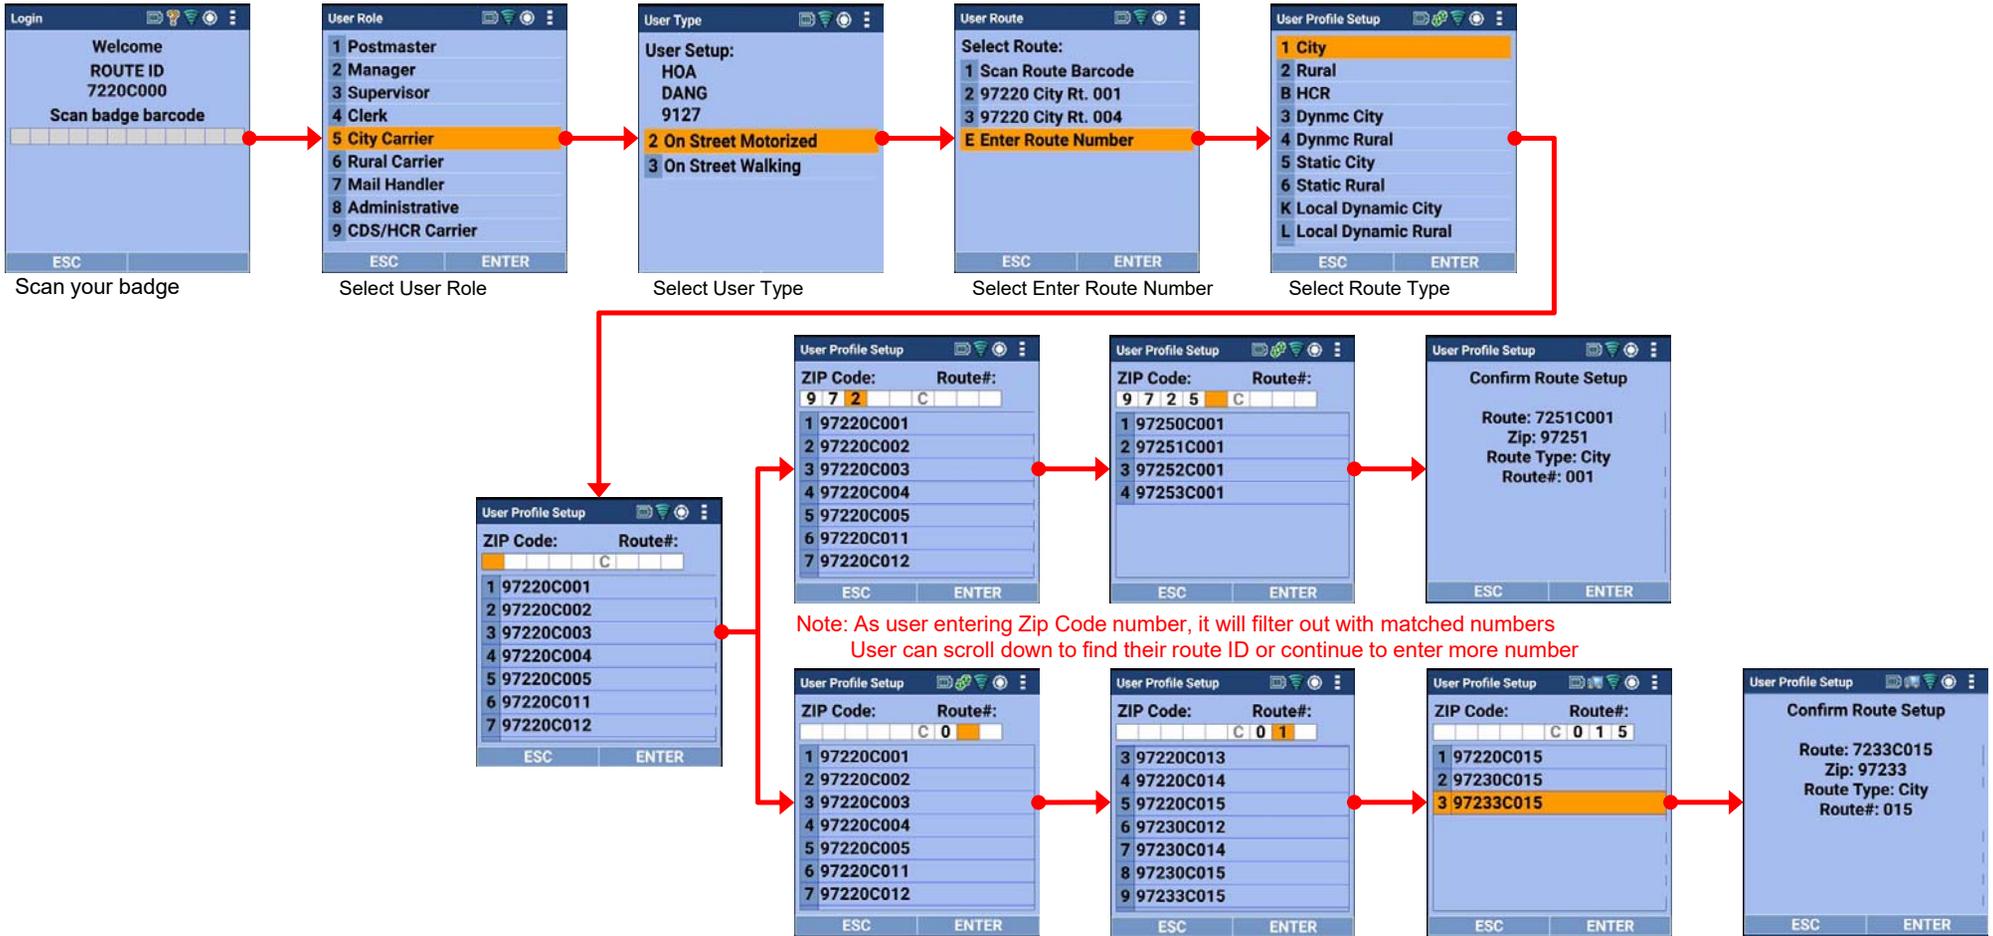

• Timekeeping for City Carriers: Using Time Clock via Hamburger Menu

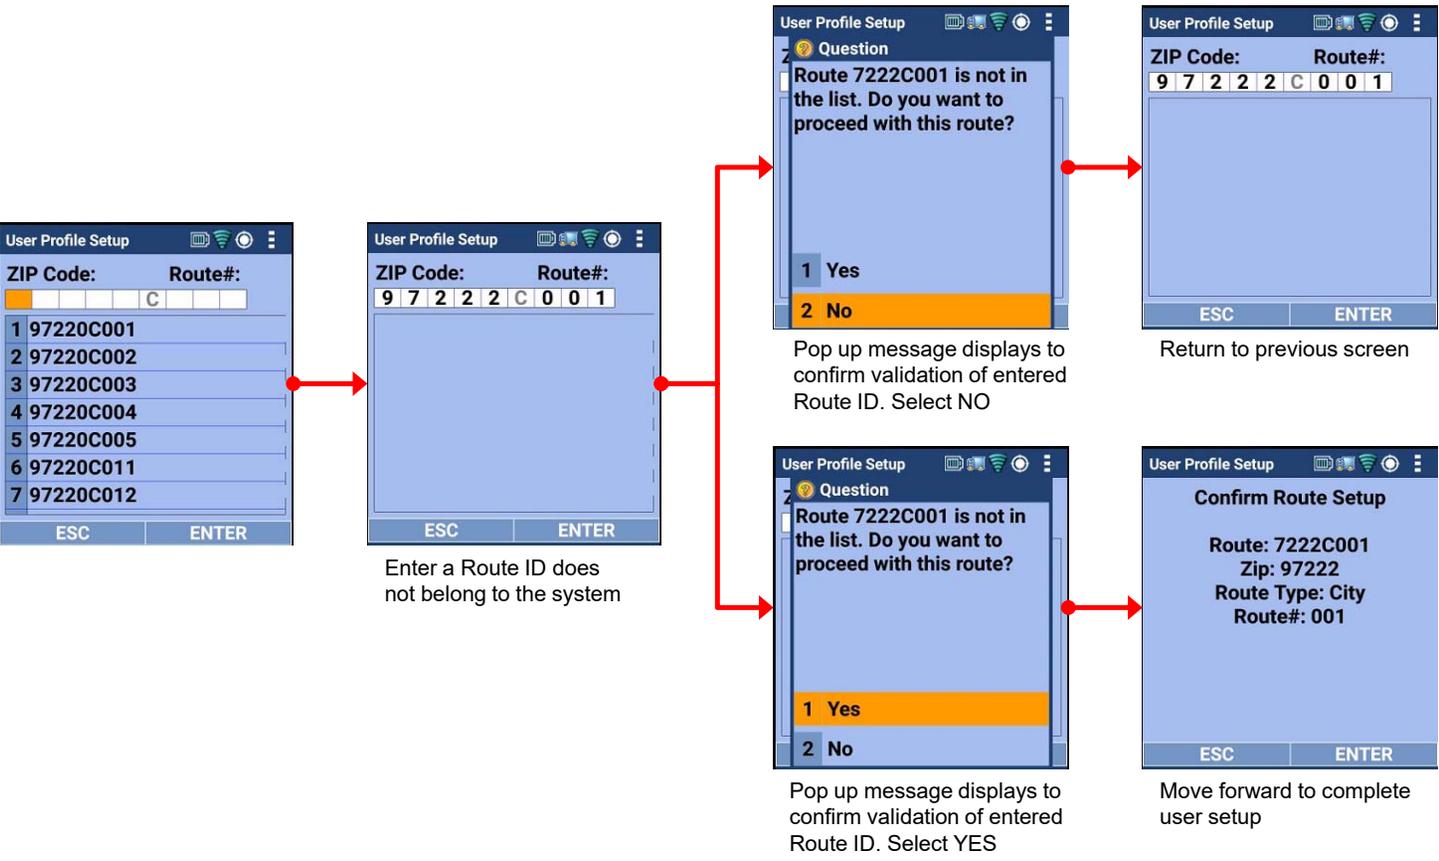

The following screens will display the same sequence as in "normal" workflow. Once clock ring recording is complete, the scanner returns to the login screen.

When the user accesses "Time Clock" via the Hamburger Menu, the Route ID will not be prepopulated but remain blank, since the user has not logged in for TR to collect Route ID info.

Timekeeping for City Carriers: Using Dropdown Box

• Timekeeping for City Carriers: Using Dropdown Box for Manual Entry

MDD- In Office (MDD-IO)
Function 4
Timekeeping

F4 Timekeeping: RIMS – Mobile Delivery Device In-Office Scanner (MIO)

Processual Changes

- The new time keeping process will utilize operational move placards placed in work locations throughout the office which employees will scan.
- MIO scanner will record Retail & Customer Service employees' clock rings, and work hours will be posted in the TACS application from **RIMS**.
- Employees can access Time Keeping workflow by pressing hot key combination “Red” + “F” and scan their badge prior to recording the rings.

Pre-Implementation Checklist

- All employees must have a current barcoded ID badge
- EAS staff must have required access to RIMS and TACS for the Proof-of-Concept facility
- Print and post all applicable placards; ensure they are easily accessible in each operational area
- All MIO scanners must be available and configured to the correct finance number
- All clerks must log into MIO scanners
- Print and post SWIs and SOPs for reference
- Ensure all employees have been properly trained
- Ensure PS1260s are available (for back-up purposes)

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

Placard Procedures

To create placards log into **Regional Intelligent Mail Servers (RIMS)**

<https://rims-imd.usps.com/login.php>

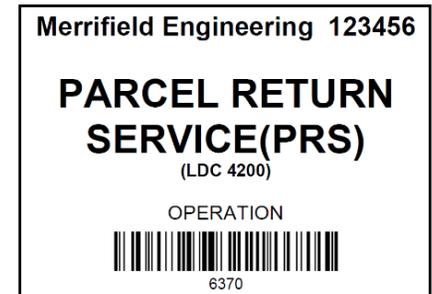

RIMS/TACS Operations

In RIMS navigate to the TACS operations screen. This allows management to create, edit, delete, and print TACS placards that can be scanned by employees when performing work that falls under a specific operation code.

When first displayed, the TACS operations list is sorted in ascending order based on operation description, but it can be sorted by any field where the column title is underlined. The list can be searched by finance number, operation description, and operation code, and can be exported to an Excel or CSV formatted file for reference.

The list currently supports only In-office operations but may be enhanced at a later date to include On-street operations as well.

The data in the list is stored in RIMS for an indefinite time period and can be modified or deleted at any time.

List of TACS operations:

- Edit (*hyperlink used to modify an entry*)
- Type (*In-office is currently the only option*)
- Finance Number
- Operation Description
- Operation Code
- LDC Code (Labor Description Code)
- Created Datetime (CST)

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

TACS operations screen sample: step-by-step instructions

1 Config Tab – TACS Operations

The screenshot shows the RIMS application interface. The top navigation bar includes 'Home', 'Firmsheets', 'Reports', 'Regmail', 'Messaging', 'Config', 'Tracking', 'Area', and 'District'. The 'Config' tab is active. On the left sidebar, 'TACS Operations' is highlighted. The main content area shows the 'TACS Operations' configuration screen with a 'New Operation' button and search fields. A table of existing operations is visible below.

Results: Viewing items 1-20 of 42.		Edit	Type	Finance Number	OPERATION DESCRIPTION
<input type="checkbox"/>	Edit	IN-OFFICE	020313	ADMIN & CLER AREA STAT	
<input type="checkbox"/>	Edit	IN-OFFICE	020314	ALLIED DISTRIBUTION

<input type="checkbox"/>	Edit	IN-OFFICE	036367	DBCS/DIOSS I/C PRIMARY	

2 To Add a New Operation

The screenshot shows the 'TACS Operations' form with a 'New Operation' button and search fields for Finance Number, Operation Description, and Operation Code.

For most Op. Codes Finance# defaults to the site Finance#, and user can't modify it.

The screenshot shows the 'TACS Operations' form with the 'Save' button and the 'Operation Description' dropdown menu. The 'Finance Number' field is highlighted, showing it is populated with the site Finance# (123115).

- Select an Operation Description from the dropdown list
- Finance Number (Default Finance#)
- The Operation code and LDC code are populated automatically
- Click on the Save button

For Op. Code 6210 Finance# doesn't default to the site Finance#, and user can enter one.

The screenshot shows the 'TACS Operations' form with the 'Save' button and the 'Operation Description' dropdown menu. The 'Finance Number' field is highlighted, showing it is populated with the user-entered Finance# (6210).

F4 Timekeeping: RIMS – TACS Creating and Printing Placards

TACS operations screen sample: step-by-step instructions

3 To Print a Placard

1. Select the placard(s) to be printed by checking the box next to the desired operation
2. Click the Print Placards button
3. The placard is printed in PDF, one placard per page, showing the facility description for the current office followed by the finance number, the operation description, the LDC and a barcode that captures the information.

Finance Number Operation Description Operation Code

Search Clear

Results: Viewing items 1-20 of 42.

<input type="checkbox"/>	Edit	Type	Finance Number	OPERATION DESCRIPTION
<input type="checkbox"/>	Edit	IN-OFFICE	020313	ADMIN & CLER AREA STA
<input type="checkbox"/>	Edit	IN-OFFICE	020314	ALLIED DISTRIBUTION

- Select an Operation Description from the dropdown list
- To save the changes, click Save
- To delete the entry, click Delete

TACS Operations:

Save Cancel Delete

Operation Description: ADMIN & CLER AREA STAT - 6780

Finance Number: 663102

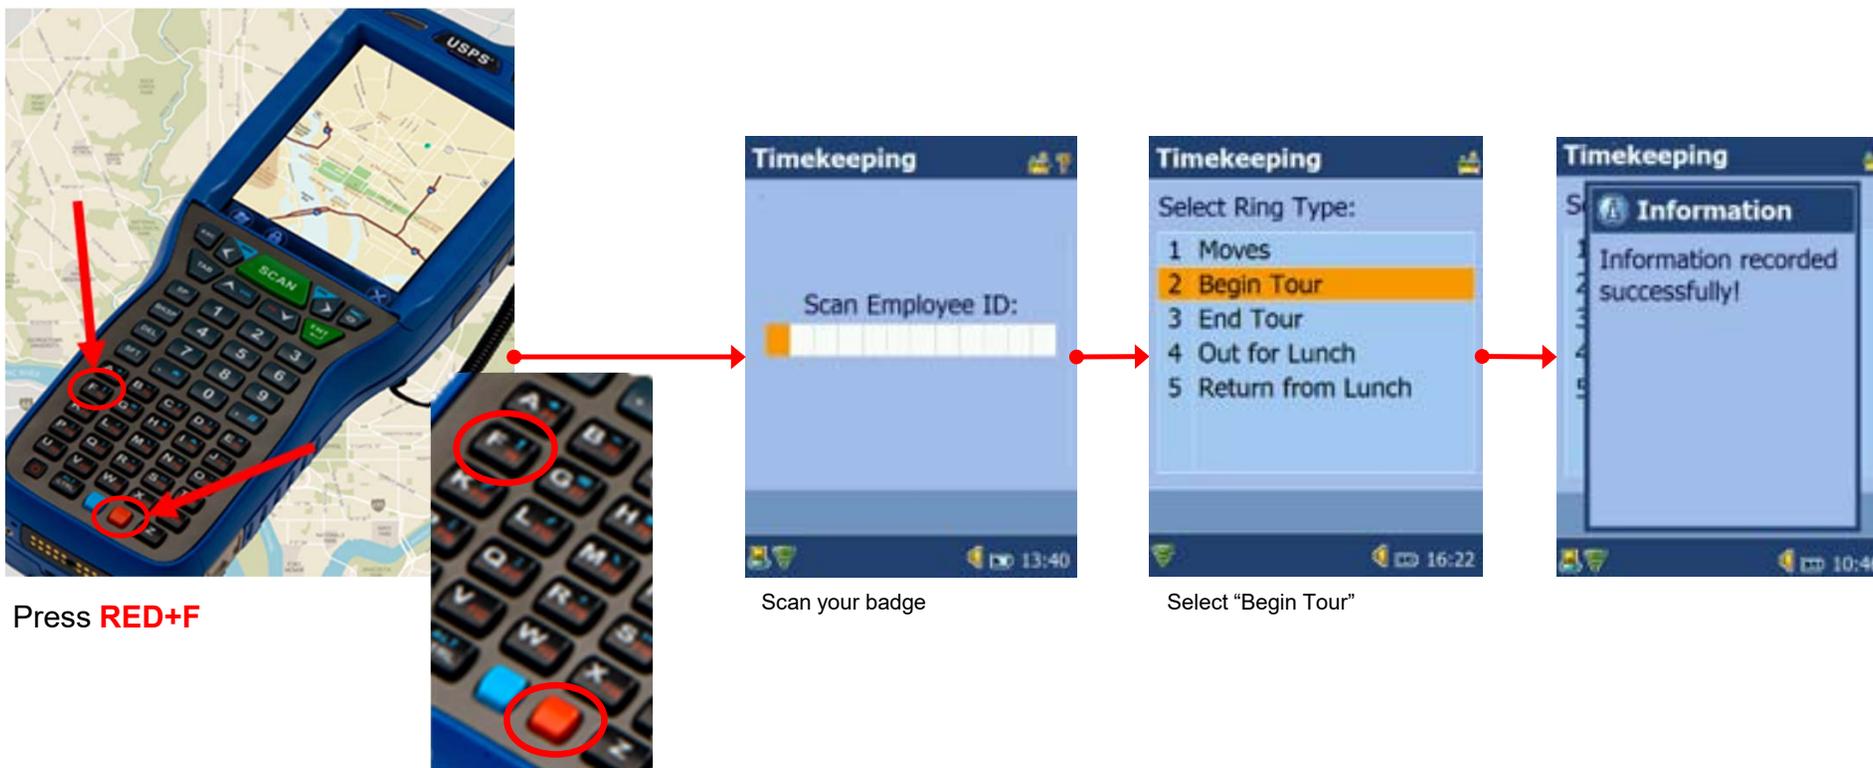

Operation Code: 6780

LDC Code: 4800

- Once all placards have been printed for the facility, they should be displayed in or nearest the workstation.
- Placards should be easily accessible for employee to reach.
- If the office requires employees to travel to various locations, placards for these finance numbers should be displayed in a segregated area as to not be confused with the primary office placards.
