2021 NAPS Supported Legislation

In addition to NAPS’ top legislative priorities, Postal Reform and MSPB Rights to all EAS, we also monitor and lend support for a number of other bills that affect the USPS and Federal employees. Check out some of these bills below.

The NAPS Legislative Support page ensures that NAPS members have the tools to act on behalf of and to protect the Postal and Federal communities. We regard the legislative bill tracking program as an important and unprececented step to enhance the effectiveness and advance the common interests of NAPS as well as the Federal Postal Community in partnering with by allowing members to become more readily aware of key pieces of legislation that may greatly impact the life and working condition of our members and the federal workforce.
