USPS Delays Implementation of EAS Field Pay Decision

The Postal Service has advised NAPS that it is putting on hold until further notice its July 20, 2018, modified EAS pay decision concerning changes to pay policies, schedules, and fringe benefit programs for all Field EAS employees that was planned to be implemented effective September 29, 2018.

The only exception to this delay is Level 20 Postmasters without a supervisor in their office. Those Level 20 Postmasters are being reclassified as Special Exempt; this decision will be implemented with effective date of September 1, 2018. All employees impacted by this decision will receive notification of the change once programming has been completed.

In addition, USPS has advised NAPS that USPS HQ/HQ Related EAS and Area Office EAS employees are not covered by the July 20 EAS field pay decision that NAPS received and that current pay policies regarding EAS grades and salary ranges remain in place. Changes that impact HQ/HQ related EAS and Area Office EAS employees will be communicated by USPS as those decisions are finalized.
