Dear Brian:

As a result in the reduction in letter and flat mail volume, the Postal Service is planning to reduce the number of Advanced Facer Canceler Systems (AFCS), Delivery Bar Code Sorters (DBCS), Automated Flat Sorting Machine 100s (AFSM100), and Flat Sequencing Systems (FSS) in its mail processing facilities.

The subject reduction is anticipated to take place over the next several months.

Enclosed on compact disc is an excel spreadsheet listing the anticipated equipment reductions and the tentative schedule.

Please identify a point of contact for your organization and the Postal Service will provide updates regarding this initiative if/when the information changes.

If there are any questions, please contact Shannon Richardson at extension 5842.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rickey R. Dean", with a large, sweeping flourish extending to the right.
