Dear Brian:

As a matter of general interest, the Postal Service plans to conduct a pilot for dock scanning of load, unload, arrival and departure scans by Highway Contract Route (HCR) drivers using a smart phone application.

The purpose of the pilot is to evaluate the effectiveness of HCR drivers conducting a limited number of scans using a smart phone in order to support surface visibility for Postal Service customers. The pilot is scheduled to take place at the Southern Maryland Processing & Distribution Center (P&DC) beginning the week of August 26.

If you have any questions, please contact Robert Ocasio at extension 2057.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rickey Dean".

 Rickey Dean  
Manager  
Contract Administration (APWU)
