

AUG 30 2021

LABOR RELATIONS

August 25, 2021

Mr. Brian J. Wagner
President
National Association
of Postal Supervisors
1727 King Street Suite 400
Alexandria, VA 22314-2753

Dear Brian:

I'm providing you an update on the staffing changes in Logistics, specifically the realignment of several Operations Industrial Engineer (OIE) and Operations Support Specialist (OSS) positions due to the August 2020 restructure. As we discussed during our September 2020 consultative meeting as well as the notification that was provided to you on November 13, OIEs and OSSs performed tasks in Mail Processing and Logistics and the separation of those functions resulted in the need to provide resources to Logistics.

Some OIE/OSS positions will be reallocated to support the execution of logistics and processing strategies for transportation. These positions will report to a Division Manager in Logistics, not to a Manager, Transportation and Networks.

Attached are the current and proposed authorization changes in Mail Processing and the authorizations in Logistics. The changes in authorizations may result in employee impacts.

As we committed to NAPS in November, employee impacts will be managed through voluntary employee movement. The Logistics OIE and OSS jobs will be posted with a Limited Area of Consideration to current Logistics and Mail Processing employees only.

Please contact me if you have questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Bruce A. Nicholson".

Bruce A. Nicholson
Manager
Labor Relations Policy Administration
