February 26, 2020

Mr. Brian J. Wagner  
President  
National Association of Postal Supervisors  
1727 King Street, Suite 400  
Alexandria, VA 22314-2753  

Dear Brian:

As a matter of general interest, the Postal Service will be conducting an operational test called Local Area of Commerce (LCOM) Same Day Delivery (SDD) Store2Door.

During the test the Postal Service will be working with a brick and mortar retailer (Best Buy) to provide package pickup and same day delivery service to test Store2Door mobile phone technology designed to manage this process. During this test some city carriers may be required to deviate from their standard delivery route, as instructed by the SDD Store2Door Mobile application to pick up packages from the retail locations and either hand off the package(s) to another carrier or deliver the package(s).

The Store2Door technology will develop the most efficient routes by selecting the optimal carrier, time and route to pick up and deliver these packages. During the test carriers will be required to use two handheld scanning devices.

The locations in the Northern Virginia District involved in the test are listed in the enclosure. The test is scheduled to begin early March and run for approximately eight weeks.

Please contact Bruce Nicholson at extension 7773 if you have questions concerning this matter.

Sincerely,

David E. Mills  
A/Manager  
Labor Relations Policies and Programs
