Dear Brian:

As a matter of general interest, the Postal Service is partnering with an external vendor, Guidehouse, to evaluate and improve how physical inventory is tracked through the Mail Condition Visualization (MCV) application.

As part of this partnership, representatives from Guidehouse will visit the Merrifield, Virginia Processing and Distribution Center on June 3 to gain a better understanding of how physical inventory is represented in the MCV. This visit will include discussions with management employees, validating a physical count of mail inventory against information available in the MCV, and identifying and analyzing inventory discrepancies.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Shannon R. Richardson".
