MGR SURFACE TRANSFER CENTER (EAS-20)
OCCUPATION CODE: 2330-0155

FUNCTIONAL PURPOSE

Oversees the processing, distribution, dispatch and transportation of mail operations for a small Surface Transfer Center (STC); manages compliance and contractual requirements of the terminal handling service (THS) to ensure operational plans and services standards are met within an assigned network.

OPERATIONAL REQUIREMENTS

This job manages a Tier 1 Surface Transfer Center. The Surface Transfer Center Tier is based on a workload factor model that includes annual trips, working handling units, crossdock containers and annual vendor costs.

DUTIES AND RESPONSIBILITIES

1. Coordinates the activities of the terminal handler, to include THS processing time, transfer time, quality assurance, and USPS policies and procedures. Monitors the sorting and dock operations to ensure timely and efficient dispatch of mail within assigned STC facilities; identifies problems and operational inefficiencies and makes recommendations for changes and improvements.
2. Manages USPS coordinators and Network Specialists that ensure THS contract compliance as well as timely and efficient dispatch of mail within assigned STC networks; identifies problems and operational inefficiencies and recommends changes and improvement. Manages funding and penalties regarding contract with THS.
3. Maintains files on THS contractor performance; initiates investigations of contract irregularities and contract penalties as appropriate; maintains performance through Key Process Indicators (KPIs) applying penalties when weekly targets not achieved; documents and meets weekly with supplier for corrective actions on failures to implement corrective actions for improvements.
4. Manages a quality control program to ensure proper handling, transfer, and dispatch of mails through the facility by the contractor in order to prevent service failures; oversees the performance of required quality control tests and recommends process improvements.
5. Monitors and ensures compliance with all terms of the THS contract including distribution, staffing and dispatch as well as transportation policies and procedures; coordinates the dissemination of information and guidance on mail handling, dispatch and routing to all network cities.
6. Conducts special studies and analyses to improve operational performance, equipment usage, and transportation schedules, and to reduce transportation costs; recommends and implements changes to operations as necessary.

7. Analyzes operational data relative to mail distribution and dispatch operations; THS contractor performance and equipment utilization; provides data to Supply Management for use in contract negotiation; monitors expenditures and provides budget recommendations.
8. Contracting Officer Representative (COR) for Terminal Handler Services (THS). Validates and approves supplier invoicing through weekly pay certification and adjustments; maintains and controls funding; provides funding for individual Customer Line Item Numbers (CLIN) to maintain and support contractual services being performed.
9. Manages highway contractor performance; analyzes forms and reports; determines when additional or alternate transportation is required; coordinates changes with affected plant managers. Performs corrective action process for supplier deficiencies and monitors for improvement; communicates and provides documentation to Transportation Strategies when suppliers fail to improve deficiencies timely.
10. Observes the distribution and dispatch of the mail to ensure the safety of others and compliance with all federal environmental and safety regulations.
11. Develops and updates contingency plans to manage during unforeseen circumstances.

SUPERVISION

Manager of unit to which assigned.

SELECTION METHOD

See Handbook EL-312, Section 740 - Selection Policies For Nonbargaining Positions.

REQUIREMENTS

1. Knowledge of mail transportation and routing operations to reduce service impacts.
2. Knowledge of contracts sufficient to monitor compliance, certify payments and adjudicate irregularities.
3. Ability to collect and analyze data sufficient to track, monitor, and evaluate operational performance and trends of service achievement.
4. Ability to analyze transportation delays to identify HCR failures and make recommendations for improvement.
5. Ability to monitor and assess contracted equipment and services.
6. Ability to monitor and evaluate contractor performance, investigate irregularities and determining root cause for improvement opportunities.

7. Ability to communicate information, instructions, or ideas to individuals or groups sufficient to provide guidance, resolve problems, facilitate information flow and write reports.
8. Ability to manage the work of others to meet service objectives, including organizing, scheduling, monitoring, and evaluating the work; providing feedback and facilitating the flow of work-related information.
