Dear Ivan:

The Postal Service is proposing revision to the established staffing criteria (enclosed) of the Supervisor, Logistics Operations EAS-17, Occupation code 2330-0040.

The purpose of this revision is to generalize the descriptions of the bargaining unit jobs used in calculating the number of supervisors which will allow for flexibility as bargaining unit job titles are established or removed.

Additionally, with the insourcing of Terminal Handling Services (THS) operations into several locations that are insourced to a facility that is not Function 1, employees will be managed by a Logistics office. This will result in the Supervisor, Logistics Operations supervising Mail Processing Function 1 craft employees in these instances.
