Dear Brian:

This is in further reference to the Postal Service's June 15 correspondence concerning the establishment of Package Support Annexes (PSAs) (copies enclosed).

The Postal Service plans to deploy modified versions of the SDUS, known as the Single Induction Package Sorter (SIPS), to 42 PSAs and 9 mail processing facilities throughout the country.

The SIPS, in contrast to the SDUS, will be affixed with an Optical Character Recognition (OCR) unit, allowing it to read the text of addresses as opposed to only barcodes. Additionally, preventative maintenance for the SIPS will be performed by maintenance personnel.

Enclosed is a list of sites where the SIPS will be deployed. The SIPS deployment schedule has not yet been finalized and will be provided as soon as it becomes available.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in blue ink, appearing to read "Shannon R. Richardson".

Dear Brian:

Consistent with the Postmaster General's 10-year plan, *Delivering for America*, the Postal Service intends to acquire 46 package support annexes (PSAs), which will support mail processing facilities in key locations. The purpose of the subject annexes is to supplement customers' growing package volume.

Enclosed please find a list of the 46 annexes, which identifies the physical location of each annex and the mail processing facility each annex will support.

Each annex will be leased for a minimum of two years and will operate on a year-round basis. It is anticipated that all annexes will be operational by August; however, that date is subject to change.

Please contact Mike Faber at 215-432-0613 if you have any questions concerning this matter.

Sincerely,

A handwritten signature in black ink, appearing to read "Shannon R. Richardson".
